AHNS 9th International Conference on Head and Neck Cancer

Technology Transforming Head and Neck Cancer Care

July 16 - 20, 2016
Washington State Convention Center
Seattle, Washington

Headquarters Hotel: Sheraton Seattle Hotel
1400 6th Ave, Seattle, WA

AHNS PRESIDENT: Dennis Kraus, MD
CONFERENCE CHAIR: Jonathan Irish, MD
PROGRAM CHAIR: Robert L. Ferris, MD, PhD
PROFFERED PAPERS CHAIR: Eben Rosenthal, MD
POSTER CHAIR: Cherie-Ann Nathan, MD
DEVELOPMENT CHAIR: Bert W. O’Malley Jr., MD

Advance Program

Dear Colleagues,

The American Head and Neck Society (AHNS) is pleased to invite you to the AHNS 9th International Conference on Head and Neck Cancer, which will be held July 16-20, 2016 in Seattle, Washington, USA.

The theme is Technology Transforming Head and Neck Cancer Care. The scientific program has been thoughtfully designed to bring together all disciplines related to the treatment of head and neck cancer. Our assembled group of renowned head and neck surgeons, radiologists and oncologists has identified key areas of interest and major topics for us to explore.

You will have a chance to participate in panels, instructional courses, professor lunches and tumor boards. We are certain you will find many topics of interest, and hope you will submit an abstract for presentation and discussion.

Of special note is our exceptional line-up of keynote speakers:

- Robert S. Bell, CM, MSc, MD, FRCSC – Deputy Minister of Health, Province of Ontario, Canada; Former CEO-University Health Network, Toronto; Orthopedic Surgical Oncologist
- Curt Cronin – Founder, Mastery Technologies; Former Leader Navy SEAL Team
- Mike Dowling, CEO – President and CEO, Northwell Health
- Ashok Shaha, MD – Jatin P Shah Chair in Head and Neck Surgery and Oncology Attending Surgeon, Head and Neck Service at Memorial Sloan-Kettering Cancer Center
- Mark Shrime, MD, MPH, PhD – Research Director, Global Surgery and Social Change, Harvard University
- Dave Williams, MD – CEO, Southlake Regional Health Centre; Former NASA/Canadian Space Agency Astronaut

Rounding out the conference is the social program that includes an International Welcome Reception with Exhibitors and an offsite event at the Experience Music Project.

The AHNS International Conference on Head and Neck Cancer has been the world's pre-eminent meeting for head and neck cancer since its inception in 1984. Please join us along with nearly 2,000 surgeons, oncologists, scientists and allied health professionals from around the globe at our meeting in 2016.

We look forward to seeing you there!

Jonathan Irish, MD, Conference Chair
Robert L. Ferris, MD, PhD, Program Chair
Dennis Kraus, MD, AHNS President

Headquarters Hotel

Sheraton Seattle Hotel
1400 6th Avenue, Seattle, WA

Steps from Pike Place Market, the Seattle waterfront and Washington State Convention & Trade Center, Sheraton Seattle Hotel is a contemporary urban retreat in the heart of downtown Seattle, Washington. Discover a vibrant destination with innovative hospitality and warm Seattle personality that inspires you to work, play, relax, and connect in the Emerald City.
WHO SHOULD ATTEND

- Head and Neck Surgeons
- Otolaryngologists
- Plastic Surgeons
- Surgical and Medical Oncologists
- Dentists & Oral Surgeons
- Radiation Oncologists
- Radiologists
- Pathologists
- Residents and Fellows
- Clinical Investigators
- Molecular and Cellular Biologists
- Allied Health Professionals

EDUCATIONAL OBJECTIVES

The conference is designed to facilitate discussion on “best practices” in the diagnosis, treatment, and rehabilitation of head and neck cancer patients throughout the world. The participation of Medical Oncologists, Radiation Oncologists, Radiologists, Pathologists and Head and Neck Surgeons will ensure educational interaction within and between specialties that can strengthen multi-disciplinary collaborative relationships.

At the conclusion of the event, participants will be able to

A. Assess and apply therapeutic options for the head, neck and thyroid cancer patient in a multidisciplinary environment, including:

- Chemoradiotherapy immunotherapy, and how these treatments impact oncologic and functional outcomes of patients with advanced head and neck cancer
- Novel radiation delivery, and the benefits and drawbacks of methods such as Image Guided Proton Therapy (IGRT)
- Emerging molecular-targeted agents: their efficacy and role in the treatment of cancers of the head and neck, including thyroid cancer
- Surgical treatments, including the impact of technological breakthroughs resulting in robotic surgery, image-guided treatment of skull base neoplasms, sentinel node mapping, new powered instrumentation and hemostatic devices as well as endoscopic approaches to the neck and the thyroid gland and new reconstructive approaches

B. Assess emerging research that has lead to better understanding of the pathogenesis of head and neck cancer and its treatment, including:

- New imaging breakthroughs for disease detection, pre-treatment staging, and assessment of treatment response
- High throughput laboratory approaches to analyze tumors and biofluids including whole genome sequencing, cDNA microarrays, array CGH, SNP arrays and integrative genomics
- The significance of human papillomavirus (HPV) elements and or antibodies in tumors and biofluids
- Pre-clinical evaluation of novel therapeutics
- Early detection of oral pre-malignancy, cancer and chemopreventative approaches
- Newly discovered biomarkers and their utility in treatment selection
- In addition, attendees with research careers may also find new collaborators, develop new research protocols (including clinical trials), participate in and improve existing protocols and trials

C. Assess and apply the process, outcomes, and quality of delivering care to head and neck cancer patients, including:

- The value of treatment guidelines including the NCCN and ATA treatment guidelines in improving patient care
- How to measure patient-reported outcomes and maximize their utility
- How to establish a surgical quality and performance monitoring program
- The importance of examining cost effectiveness when considering novel treatments
- The Physician Quality Reporting Initiative (PQRI) in head and neck cancer care
- Incorporating quality measurements into trainee/medical student education
- The burden of caring for H&N cancer patients in the developing and international community

D. Recognize the vital role of nurses, speech language pathologists, audiologists, nutritionists, social workers, pain specialists, mental health practitioners, physical therapists, and dental oncologists in achieving maximal functional outcomes leading to increased interdisciplinary cooperation

AHNS ACCREDITATION

The American Head & Neck Society is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The American Head & Neck Society designates this live activity for a maximum of 32.75 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

REGISTRATION

Register online NOW at http://www.cvent.com/d/9fqjyz.

For more information, please visit www.ahns2016.org/registration.

Early Bird Rates end June 24, 2016 at 11:59PM PST.
The American Head and Neck Society (AHNS) invites you and your colleagues to participate in the AHNS 9th International Conference on Head and Neck Cancer. You are encouraged to participate in an outstanding meeting that promises to present the newest scientific findings related to head and neck cancer biology and treatment from a multidisciplinary perspective.

All authors who wish to present papers for the AHNS 9th International Conference on Head and Neck Cancer may submit through a link on the AHNS website (www.ahns2016.org). Abstracts may be selected for either oral or poster presentations. Further details concerning abstract word length, charts/tables and other formatting instructions will be made available on our website.

Authors will be able to designate their abstract for one of the following categories:

- Cancer Biology
- Chemotherapy / Radiation
- Education / Care Delivery
- Endocrine Surgery
- Functional Outcomes / Quality of Life
- Health Services Research
- Human Papillomavirus
- Hypopharynx/Larynx
- Imaging and screening
- Immunotherapy
- Nasopharynx / Paranasal Sinus / Skull Base
- Oral Cavity
- Oropharynx
- Reconstruction / Microvascular Surgery
- Salivary Gland
- Skin Cancers

Accepted abstracts will be published in the meeting app. Deadline for abstract submission is Friday, January 8, 2016.

We encourage everyone to submit an abstract, whether or not you are a member of the AHNS. For more information, please visit our website at http://www.ahns2016.org/abstracts/.

AHNS SPONSORED AWARDS

All authors are invited to compete for one of the following:

- **Robert Maxwell Byers Award** in the amount of $1,000 US for the best clinical research paper submitted to the meeting.
- **Best Resident Basic Science Research Paper** in the amount of $500 US. Only residents in training can compete for this award and must attest that he/she performed at least 80% of the work.
- **Best Resident Clinical Paper** in the amount of $500 US. Only residents in training can compete for this award and must attest that he/she performed at least 80% of the work.
- **Best Prevention and Early Detection Papers** in the amount of $500 US for first place and $250 for second place.

Only abstracts selected for Podium Presentation will be eligible for awards. All authors who intend to compete for an award must notify AHNS of their intent at the time of their abstract submission by checking off the award for which they wish to compete. To be considered for the awards noted above, you must also submit a completed manuscript to the AHNS Office by SUNDAY, MAY 1, 2016. Only previously unpublished manuscripts will be considered for awards.

MANUSCRIPT REQUIREMENTS

All abstract submissions are encouraged to submit a manuscript to the AHNS journal, *JAMA Otolaryngology – Head & Neck Surgery* (formerly *Archives of Otolaryngology – Head & Neck Surgery*).

Papers can be submitted at: http://manuscripts.jamaoto.com/cgi-bin/main.plex

All papers must be complete submissions according to the Journal’s Instructions for Authors. Instructions for *JAMA Otolaryngology – Head & Neck Surgery* are available at: http://manuscripts.jamaoto.com/cgi-bin/main.plex?form_type=display_auth_instructions
## Saturday, July 16, 2016 – Instructional Courses

### 8:00 am - 9:00 am

**Instructional Courses #1**
- Thyroid Nodule Molecular Testing - Assays and Decision Making
- Enhancing Roles and Collaborations of PA/Np in H&N Practice
- NCI Cooperative Group Trial Portfolios - Novel Agents and Designs
- Oropharynx Cancer Management 2016
- Nasopharynx Cancer Management 2016
- Robotics or Laser for Transoral Surgery
- Immunotherapy - New Targets, Agents, and Clinical Trial Data
- Skull Base Surgery: Open and Endoscopic Approaches Part 1 (2 hour session)

### 9:00 am - 10:00 am

**Instructional Courses #2**
- Sialoendoscopy
- Mining National Databases
- Identifying and Managing Alcohol and Tobacco Abuse in the Head and Neck Cancer Patient
- Assessment of Treatment Response After Chemoradiotherapy
- Parathyroid Disease
- Preventing Dysphagia
- Using ATA 2015 Guidelines
- Skull Base Surgery: Open and Endoscopic Approaches Part 2 (2 hour session)

### 10:00 am - 10:30 am

**Break in Foyer**

### 10:30 am - 11:30 am

**Instructional Courses #3**
- Robotic Surgery for Oropharyngeal and Laryngeal Cancer
- Biomarkers and Signature Therapeutics: Integrating into Clinical Practice
- Epidemiology, Biology and Detection of HPV in Head and Neck Cancer
- Management of Pre-Malignant Lesions of the Head and Neck
- Comprehensive Management of Melanoma of the Head and Neck
- Innovations in Dysphagia Management
- How to Establish a Surgical Quality and Performance Monitoring Program
- State of the Art in Mandibular and Maxillary Reconstruction

### 11:30 am - 1:00 pm

**Lunch on Own**

### 1:00 pm - 2:00 pm

**Instructional Courses #4**
- Transoral Laser Surgery for the Pharynx and Larynx
- Immunology/Immunotherapy in Head and Neck Cancer
- Using HPV Status in the Clinic
- New Developments in Systemic Therapy
- Thyroid Cancer: Early and Advanced
- How to Establish a Survivorship Program
- MOC in Head and Neck Cancer Care: the American Board of Oto perspective
- State of the Art Pharyngoesophageal and Tracheal Reconstruction

### 2:00 pm - 3:00 pm

**Instructional Courses #5**
- New Technology for Thyroid and Parathyroid Surgery
- Engaging Surgeons in Multicenter Randomized Trials
- Salivary Gland Malignancy
- Imaging: Current Guidelines and Standards and Future Developments
- Non-Melanoma Skin Cancer: Novel Therapies, Surgery and Reconstruction
- Toolbox: Measurement of Function and Patient-Reported Outcomes
- Integrating Palliative Care into the Management of Patients with Recurrent or Advanced HNC
- Decision Making in Larynx Cancer - Early, Intermediate and Advanced Stage Disease

### 3:00 pm - 3:30 pm

**Break in Foyer**
