Plate Coral/ Porites

Average Size: 15-20 inches.

Diet: Zooplankton and nutrients provided by the sun and algae.

Where to find them: Below 60 feet in clear calm bays.

Fuel-Cell

By: Lucas Featherston

Many experts hope hydrogen cars will become more popular. There are already some hydrogen car owners. But very,very,very few. Fuel-Cell is a company that makes cars that run on clean energy. Anyway, back to hydrogen cars. There is only flaw in hydrogen cars. Hydrogen cars are powered by hydrogen and hydrogen is mostly locked up with other molecules. To get that hydrogen you have to pry it from molecules. When you do that it makes Carbon Dioxide, oops!

The Paralympics

By: Lucas Featherston

Since 1960 there has been the Paralympics. The Paralympics are olympic games for people with physical disabilities, such as a missing arm or leg. In the 2012 Paralympics in London, there were many amazing athletes. The Paralympics were formed by a program created to rehabilitate British of World War II. The Paralympics were created by Sir Ludwig Guttmann. Guttman's goal was to make the Paralympics exactly like the olympics, but for people with physical disabilities. In 1989 the IPC (The International Paralympic Committee) was founded in Germany to oversee the Paralympics. In 2001 the IPC forged an agreement with the IOC (International Olympic Committee) that the Paralympics and the Olympics would use the same town for their games. There were originally six categories, now there are ten! At the 2012 summer Paralympics there were more than four thousand athletes! Athletes competed in more than five hundred events. Isn't that amazing?

Jokes

By: Christopher Alegre

Q: What did a captain say to a mean person?

A: Sorry, I have no room on ship!

Q: What did a baby computer call a daddy computer?

A: Da-ta

Q: What is a computer's favorite snack?

A: Motherboard!

Q: What is a computer's favorite car?

A: A Dodge Ram Chip!

Q: What do computers use as a washboards?

A: Circuit Boards!

TF-X TERRAFUGIA

BY: MARCUS ANDERSON

TF-X TERRAFUGIA IS A CAR THAT IS IN DEVELOPMENT . IT IS A FLYING CAR. I CHOSE THIS CAR TO WRITE ABOUT BECAUSE IT CAN TAKE OFF WITHOUT A RUNWAY! THIS CAR CRUZES ABOUT 200 MILES PER HOUR. IT IS NOT A SELF-DRIVING CAR ON LAND BUT IN THE AIR IT CAN FLY ALL BY ITSELF. WHEN YOU WANT TO LAND IT WILL DECIDE IF IT IS SAFE TO LAND THEN LAND. BY LUCAS NOT MARCUS!!!!!

Baryonyx

By: Uriah Ibarra

The Baryonyx is a dinosaur that swims. The baryonyx also walks on two legs! They have crocodile heads. They eat fish and other dinosaurs baryonyx eats fish and other dinosaurs. The baryonyx also hunts at day and night. The Baryonyx will eat anything it can catch.

ANCIENT TEMPLES

BY: LUCAS FEATHERSTON

ARTISTS IN ANCIENT EGYPT PAINTED LOTS OF SCULPTURES AND TEMPLES IN BRIGHT COLORS. OVER TIME PAINT ON THESE THINGS HAS FADED AWAY. THAT'S WHY A LOT OF ANCIENT EGYPTIAN STATUES AND SCULPTURES ARE COLORED GREY. NOW A PROJECT AT THE METROPOLITAN MUSEUM OF ART IN NEW YORK MAKES IT EASIER TO IMAGINE WHAT IT WOULD'VE LOOKED LIKE. LIGHT IS PROJECTED ONTO THE WALL OF THE TWO THOUSAND YEAR OLD TEMPLE NAMED DENDUR TO SHOW WHAT IT LOOKED LIKE WHEN IT WAS JUST FINISHED BEING PAINTED. ORIGINALLY LOCATED NEAR THE NILE RIVER, THE DENDUR TEMPLE IS A VERY SMALL STRUCTURE THAT WAS COMPLETED AROUND TEN B.C. TO SAVE THE TEMPLE FROM AN ARTIFICIAL LAKE EGYPT GAVE IT TO THE U.S.A. AND IT HAS BEEN IN THE METROPOLITAN MUSEUM OF ARTS EVER SINCE.

Raptor Family

By: Eli Stephens

There are lots of animals in the raptor family here are some.

1. Hawk

2. Eagle

3. Vulture

4. Lot's more!

Percy Jackson and the sea of Monsters

By: Marcus Anderson

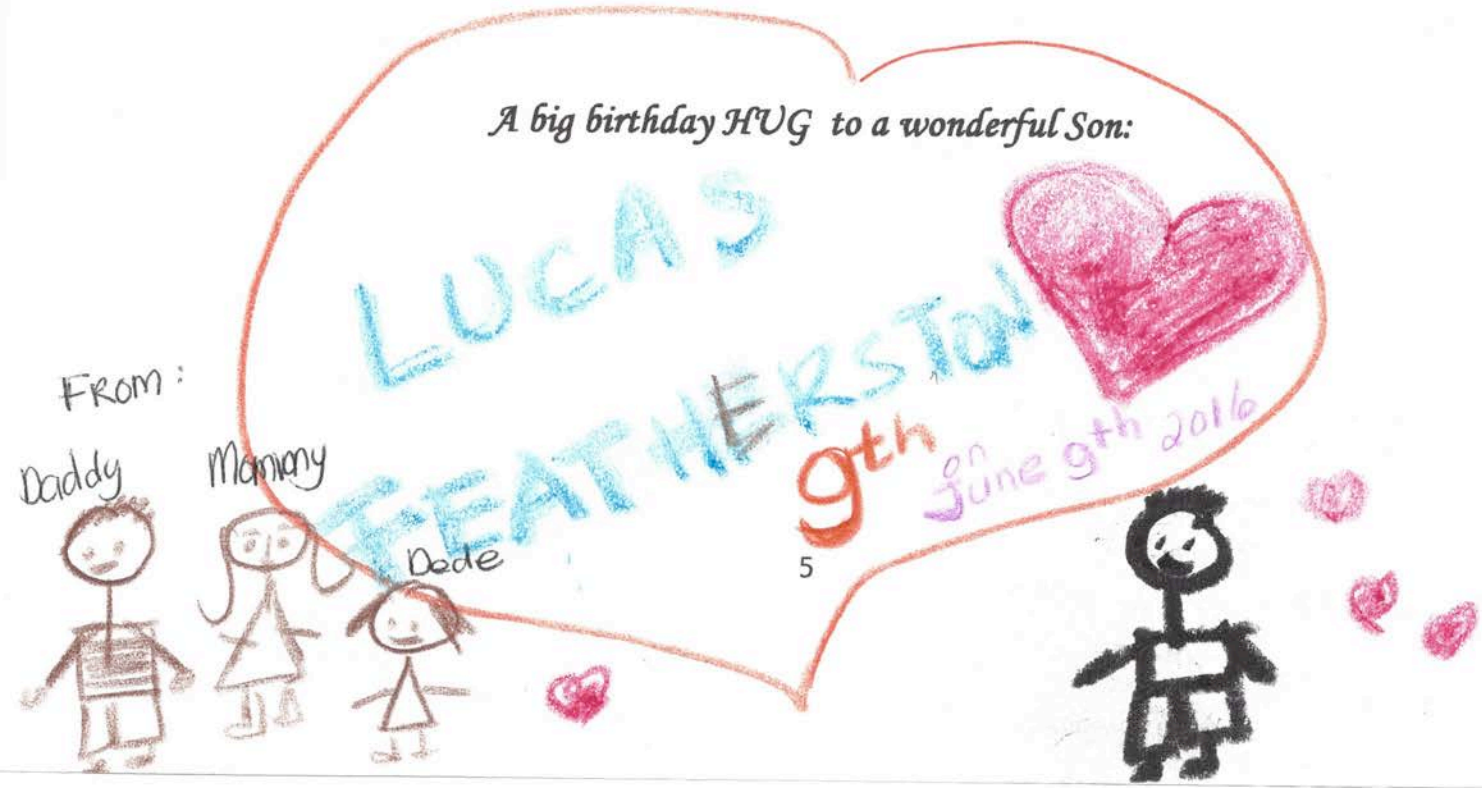
I read The Sea Of Monsters by Rick Riordan. Percy Jackson is a half-blood, which means that he is half human half Greek God. He goes to camp half blood and there is a tree by the camp that protects it from monsters. It has been poisoned so monsters can get in. Percy Jackson was playing dodgeball and monsters attacked him. Percy has a friend at school that was actually a cyclops.He has another half blood friend named Annabeth and another friend that is a satyr named Grover. I think that Zeus point of view is the tree that I turned my daughter in to has been poisoned so i'm going to blame the person in charge. Annabeth's and Percy's point of view is he shouldn't be blamed on the person in charged you should find out who did it.

Madelyn Update!!!

By: Madelyn Lege

We moved into our house about a month ago. It is fun. I'm on swim team and I go to Cole Canyon and have a teacher named Mr. Paysse. He has a mustache! My phone number is 559-270-9525 and I miss all of you. Bye! 😀💕

Kobe's last game

By: Lucas Lima


Recently, NBA star Kobe Bryant played his last game. He scored 60 points and had 4 assists and 1 block. With his team needing points, Kobe shoots a jumper with 31.6 seconds left to give the Lakers the lead 97-96. They won the game and finished the season with a record of 17-65. This paragraph was written to salute this amazing player and guy.
