How to Register for Trainings

Training registration begins on the 1st of each month. Why? "Training comes first, before the hours, and that is why registration is the 1st of the month". Be intentional about your training selection. Select a training based on your needs and interests.

Registration is online using:

Eventbrite/Trainings w/Cost

http://snhsccrr.eventbrite.com

NH Professional Registry

https://nhportal.naccrraware.net/nh/

Please note on the training calendar which registration method is required and register accordingly. Registration Symbols have been added to assist you in determining which method to use. For information on the NH Professional Registry and to register please visit http://nh.childcareaware.org/.

TRAINING REGISTRATION POLICIES & PROCEDURES

Prior to registering for upcoming trainings, please review the below policies. Individuals are responsible for managing their own professional development and when attending trainings offered through Child Care Aware of New Hampshire they are expected to adhere to the training registration policies as outlined below. We encourage all trainees to select trainings that meet their needs and will support their professional development in a meaningful and intentional way. If you are a center director, we would encourage you to post these policies with the training calendar and consider addressing these at your next staff meeting. We appreciate your support and help as we ensure that trainings offered are well attended and utilized by trainees.

- **Pre-registration is required.** Space is limited, so register as early as possible. Should a session be full, a wait list will be maintained. When space opens up, you will receive an email from Eventbrite or the Registry indicating that you have come off of the wait list. You have 24 hours to respond to this notification and register before your space is offered to someone else.
- **All training registration is done through Eventbrite or through the NH Professional Registry** (Visit www.nh.childcareaware.org for more info. on the Registry). Trainings in Eventbrite are trainings with a cost and trainings available for registration in the NH Professional Registry are at no cost. Please look for registration links on the Training Calendar page to determine how to register.

- **Training Registration is the 1st of each month.** As training comes first, before the hours, our training registration window is the 1st of the month. Please note that the registration window opens regardless of what day of the week it lands on. What is a "training registration window"? A training registration window is when registration opens for a training. When the window is open you can register. Essentially trainings can be registered on a monthly basis.

- **A minimum of 10 registered people are required to hold a training.**

- **Training information is available through our e-newsletters in a separate Training Calendar e-newsletter announcement and/or through the "Monthly Minutes" and/or "At-A-Glance" editions.** Trainings are also posted on our website at www.nh.childcareaware.org, at www.snhs.org and on the NH Professional Registry. To be added to our e-newsletter list, please email outreach2ccrr@snhs.org with Subject Line "E-Newsletter" and include your name, the child care program you work at and the city in which you work.

- **Training registrations are non-transferable.** We do not limit the number of people who register per program. We register the individual, not the program. Please note that if you are not able to attend you cannot replace yourself with another individual, as that is done through our wait list process through Child Care Aware of NH. If you are not able to attend you will need to cancel your registration and withdraw.

- **If you need to cancel your registration for a training offered in the Registry**, please go into your online profile and withdraw from the training. If you do not withdraw by the day of the training, a "no show" will be placed on your training transcript for that training and space won't open up for those on a potential wait list.

- **If you need to cancel your registration for a training offered in Eventbrite**, there are two methods of cancelling. If the training on Eventbrite had a cost please call the Training and Technical Assistance Line at your local Child Care Aware of NH Regional Outreach Office to cancel. Please note that registration fees are non-refundable and non-transferable. If the training on Eventbrite is free, you can cancel your own registration by going into Eventbrite and doing so.

- **If a training is cancelled by Child Care Aware of NH**, all registered participants will be notified via email with the registration information provided. Please check your email prior to attending a training, as sometimes cancellations are last minute.

- **When a training with a fee is cancelled by Child Care Aware of NH**, participants will be refunded their registration fee. Trainings may be rescheduled at the discretion of the Child Care Aware of NH. In this case, participants would need to re-register but would be given priority registration.

- **Training Registration Fees are non-refundable. Training with a cost must be paid for through Eventbrite.**

- **IMPORTANT!!! Training Registrants are required to arrive to the training prior to the advertised start time of the training.** We are unable to accept late arrivals to trainings. To maintain the professional integrity of the training being offered and to respect time of the trainer and trainees, please arrive prior to the start of the training. Your cooperation is appreciated.

- **Child Care Aware of NH Staff add trainings registered for through Eventbrite into the NH Professional Registry for NH Professional Registry Users.** If you register for a paid training or event through Eventbrite, this training will be added to your registry record and you will have it available on your training transcript once you complete the training. You will be getting a confirmation email from Eventbrite with your ticket that you are registered and will also be receiving an email from the Registry indicating that you are enrolled. If you have questions about this, please contact our Professional Development Support Coordinator, Shannon Quinn at 603-323-7091 or one of our regional outreach offices.

- **The NH Professional Registry's captures all trainee's training. The Training Transcript section of each individual Registry User's account can be printed out and used for documentation purposes.** The Registry captures trainee completion under Training History in each trainee's registry record. This information can be used for proof of attendance for licensing and for credentialing purposes. Simply print it out or send your director an email copy for your file. Training certificates will only be issued at conferences. If you need assistance navigating the Registry please give us a call. We'd be happy to assist you.

- **Courtesy Training Reminder/Confirmation Calls will not be conducted by Child Care Aware of NH**. You are responsible for documenting your training registration, remembering to go and attending the trainings you are registered for.

- **Child Care Aware of NH reserves the right to revoke training privileges** from individuals who do not adhere to these policies and/or act in an inappropriate manner at a Child Care Aware of NH training.

- **Child Care Aware of NH Trainings will be offered in the months of February to June and August to December.** Child Care Aware of NH will not be offering trainings in the months of July, August and January. These months are reserved for provider updates and database maintenance.

When planning your professional development for the year, please keep in mind the following:

- Full day conferences are offered throughout the year in the months of September, January, March, May and November.
- Trainings are not offered in the months of January, July and August. In 2016, trainings in mid-January are being provided to determine interest.
- Training topics are scheduled in a six-month time period. We hope to move to an annual training calendar in the Fall of 2016. Efforts are made to provide training topics throughout the state. If you see a training offered outside of your region in one quarter you will most likely see it offered in your region the next quarter and vice versa pending trainer availability, travel needs and funding.

Thank you in advance for adhering to our policies and helping assist us in establishing a consistent registration process and quality training experience.

Core Knowledge Areas:

1. Developing as a Professional
2. Building Family & Community Relationships
3. Teaching & Learning
4. Promoting Child Growth & Development
5. Observing, Documenting & Assessing

Be on the lookout in late summer for our Fall "Caring for Our Children" Conference and our "Keys to Quality" Conference. Other professional development opportunities and trainings resume in September. Please note that trainings are not provided in July and August.

E-Newsletter Alerts! If you are not receiving our e-newsletters the "*Monthly Minutes*" and "*At-A-Glance*" editions and would like to be, please email our outreach & marketing email at outreach2ccrr@snhs.org. Please include your name, email, the child care program you work in and what town you work in and use subject line "E-Newsletter" and we'll be sure to add you. Our e-newsletters are available for anyone in the field of early childhood or who has an interest in our program services.

Training Descriptions:

Child Care Basic: Caring for Infants and Toddlers

This training will focus on the importance of developing relationship-based practices that support attachment, infant and toddler development and developmentally appropriate curriculum. The Early Learning Standards, Infant and Toddler Competencies, and Credential endorsement will be introduced. The target audience for this training is foundational, Intermediate and those seeking review.

Child Care Basic: Developing Cultural Competency in the Early Childhood Environment

This workshop will examine ways to create an environment that is respectful and welcoming to the diversity of families, cultures, and experiences of all children in your care. The targeted audience level for this training is intermediate and those looking for review.

Child Care Basic: Is This a Good Place for Me? Learning Spaces That Work! (Offered in English and in Spanish)

This training will provide an understanding of how the environment influences us. This understanding will position participants to understand the impact of settings on children. Participants will look at the ways early childhood environments speak to children and adults by influencing our many senses and emotions. Join us for an interactive learning experience with activities and resources to share with your colleagues. The targeted audience for this workshop is Intermediate and for those looking for review.

Child Care Basic: Providing Inclusive Care

Each child has specific needs and our job as early childhood professionals is to discover and address those needs to promote optimal growth and development. This training will provide an overview of federal law regarding inclusion as well as how to make accommodations to support the individual needs of children in child care settings and their families. The targeted audience for this workshop is foundational to advanced and for those looking for review.

Child Care Basic: Social Emotional Development of Young Children:

This training will explore the components of healthy social emotional development in young children birth through age five years. How do young children experience, regulate, and express emotions? How do they form secure relationships? How do families and caregivers shape their child's development? We will discuss learning strategies to promote healthy development and self-regulation within the child care setting. The importance of collaborating with families will also be addressed. The targeted audience level for this workshop is intermediate and for those seeking review.

Child Care Basic: What Are You Trying to Say? Behavior is An Attempt to Communicate:

This training will provide an overview of developmentally appropriate expectations of children's behavior. Together, we will address how children communicate through their behavior. Participants will develop strategies to promote desirable behavior. The target audience for this training is Foundational, Intermediate, Advanced and those seeking review.

Childhood Lead Poisoning in NH: What Early Childhood Educators Need To Know

Each year close to 1000 children in New Hampshire are poisoned by lead and experience blood lead levels known to impair cognitive development and cause behavior problems. An overview of childhood lead poisoning in New Hampshire and the effects of even low-level lead exposure have on the brain's learning systems identified in study after study will be provided. Early childhood educators will develop an understanding of lead's "Neurobehavioral Signature" -- significant negative impact on cognitive ability, speech and language, hearing, visual-spatial skills, attention, impulse control, social behaviors, emotional regulation, and motor skills -- that are irreversible and cause a life-time of consequences. Educational interventions for young children affected by lead and the importance having results required lead screening tests documented on school health forms.

Children in the Shadow

Anxiety is the most common mental health diagnosis in children and adults. diagnosed are often in the shadow of others who are more outgoing. Therefore, we may be unaware of their anguish. This session examines the childhood fears, sensitivities and anxieties that may interfere with learning and maximizing full potential. The focus is on applying scientifically-proven approaches in the home and classroom environment.

Coping Styles with Stress and Distress

No matter how much we love children or how fulfilling we find caring for and educating them, it is difficult and demanding work at times. There are no instruction manuals or cookbook recipes, nor are there

mandates that require us to take care of ourselves. Find out what coping strategies work for your temperaments as well as the difference between stress and distress.

Demystifying the Early Childhood Credentialing Challenges - Online Webinar

Have you heard that there have been changes to the Early Childhood credentials? This session will guide early childhood professionals as they learn to understand the NH Early Childhood Professional Development (NHECPD) System. Participants will learn about the importance of professional development, the components of the system, and how to submit a completed application. It will also address the revisions to the NHECPD System, including the transition from Professional Activity Units (PAUs) to the role that Competencies will play in the credentialing system, the addition of Montessori Credentials as a component of the educational requirements on some of the credential lattices, and other changes related to the updated system.

From Princesses to Pirates

Set a course for an enchanted training where participants learn how to create their own folktale, fairy tale or fable. Participants will learn the importance of storytelling ethics and how to research a story at their local library. Everyone will be educated entertained and engaged while learning how to do sound effects and character voices that helps bring stories to life. Participants will learn amazing and fun theater games to get ready to tell their own stories… and much more!

"Get Away from Me:" Helping Children Learn to Deal with Anxiety and Stress", Session 1

Young children's behavior can seem pretty mysterious. Some kids get along easily and others seem to struggle mightily to meet everyday expectations. This training will focus on understanding anxiety and stress in the lives of young children and its impact on behavior and social interactions. This session will focus on developing practical "teaching tools" to promote emotional regulation and dealing with stress and anxiety in the moment.

Helping Kids Get Along: Fostering Children's Social and Emotional Competence: A 4-Week Series for Early Care & Education Professionals

- **Session 1: "Helping Kids Get Along, How Children Learn Social Skills":** This training session will focus on defining social competence and understanding how it develops. In addition, participants will explore strategies for promoting emotional regulation, social understanding, and social skills and designing routines, transitions and classroom culture that promote social emotional competency.
- **Session 2: "Keeping the Lid On - Helping Children Learn to Deal with Anger and Big Emotions":** This training session will focus on understanding how anger, stress and anxiety can impact young children. Participants will develop practical "Teaching Tools" to promote emotional regulation and deal with anger and anxiety in the moment.
- **Session 3: "You're Not the Boss of Me - Working with Challenging Behaviors":** This training session will focus on defining and understanding challenging behaviors and developing overall strategies for preventing challenging "trouble spots". Participants will also focus on identifying strategies to help specific children manage challenging behavior.
- **Session 4: "Collaborating When Behavior is a Concern":** This training session will focus on creating an atmosphere of cooperation with parents and others and developing communication strategies and conflict resolution skills. Participants will also focus on identifying available resources to help support children in their program.

How Do I Meet ALL of These "Special Needs?"

Child care involves working with many children, all of whom have very unique needs. When one or more are also identified as having a specified special need, the work of the child care provider increases. In this workshop we will identify where you can find help, how to work effectively with families and what methods have worked for others.

Intentional Environments for Infants and Toddlers

Learn how an intentionally responsive and respectful environment provides the most optimal learning opportunities for infants and toddlers to grow and explore. Engage in large and small group discussions, examine environments via photographs, and see how careful planning of the environment can create a magical and challenging space that delights toddlers and teachers alike!

Navigating the NH Professional Registry

This training, provided through the Progressive Training and TA Pilot Program, provides an orientation to New Hampshire's Professional Registry for early childhood or afterschool professionals. Participants will learn more about this exciting new technology for registering and tracking their training and professional development and are encouraged to bring their laptops, tablets and wifi-accessible devices. Registration is online. Go to www.nh.childcareaware.net and go to Hot Topics and look for New Hampshire Professional Registry. Review this information and register into the registry following the registration steps provided. Once registered do a search for active classes. If you need assistance, please contact Child Care Aware of New Hampshire.

NH ECE Workforce Specialized Competencies: Tools for Professional Development

This training session introduces three sets of early childhood core knowledge competencies designed to be used by those who work in and with early childhood programs. Attendees will learn the meaning of competency and how to assess their own knowledge and skills, as well as how to work with child care program staff and other colleagues engaged in self-assessment of competencies. Discussion will include the many benefits of implementing these competency tools, especially for professional development. Experience the learning that takes place as participants share their knowledge and Aha! moments and take those revelations back to your program as you share the competencies with others.

Period of PURPLE Crying Awareness Training

Learn more about the Period of PURPLE Crying so that you can support the parents of infants with whom you interact. This presentation will increase your awareness about this developmental stage of increased crying, ways to cope with it, and the dangers of reacting to the crying in frustration. Parents of 96% of the babies born in NH are learning about PURPLE when they give birth. If you work with these families you need to know about it too! The Period of PURPLE Crying is an evidence-based infant abuse prevention program that educates parents about a developmental phase of increased infant crying. New Hampshire Children's Trust leads the effort to bring information about the Period of PURPLE Crying to parents by providing technical assistance to hospitals to implement the program, supporting community based providers in reinforcing the program's message, and spreading the word through coordinating public awareness. The program employs a triple dose strategy to introduce, reinforce, and promote the messages of the program. A question and answer period has been added for informational purposes.

Planning Your Professional Development! Filling Your Toolkit for Success!

Are you getting ready for a new school year? Do you know how many professional development hours you have or where to go to get relevant training? Have you thought about creating a professional development plan for the year? During this training session, you will create a professional development toolkit that will help you hammer out the kinks to obtaining meaningful and intentional training hours to increase your competencies. Together, we will discuss the CCLU rules and regulations around professional development, what things need to be considered to set up a purposeful and personalized training schedule, how to maximize your efforts with the NH Professional Registry and where to find quality in-service and online trainings. With your personal toolkit in tow you will be more than ready to nail this year's professional development training hours and meet your own professional development goals.

Quality Emergency Operations Plans

This session will provide the participant with relevant guidance on how to develop a comprehensive high quality Emergency Operations Plan. All schools, childcare facilities, and residential programs must (should) have an Emergency Operations Plan for licensure to be in compliance with State and Federal rules and regulations. Key components to be covered will include assembling a planning team, collaboration with public safety officials, and training and exercising the plan to ensure its effectiveness.

Recognizing and Reporting Child Abuse & Neglect

Did you know you are mandated to report suspected child abuse and/or neglect? Do you know who to call? Do you know what signs to look for? Or what happens after you call? Come join us for this informative training and get these questions and more addressed! Participants will have the opportunity to define child abuse and neglect and examine the impact of maltreatment on a child's development. Participants will learn how best to respond to concerns about possible abuse and neglect and discover what their role is as a mandated reporter. In collaboration with the Division for Children, Youth and Families.

Reducing the Risk of SIDS and Sudden Unexpected Infant Death with Audrey Knight

This training will provide a review of Sudden Infant Death Syndrome and some of the causes of Sudden Unexpected Infant Death. Information regarding your role in carrying out the American Academy of Pediatrics' recommendations to reduce the risks and promote a safer sleep environment will be a focus of this training. A brief overview of what happens when an infant dies suddenly and unexpectedly in New Hampshire will be shared.

"You're Not the Boss of Me:" Working with Challenging Behaviors, Session 2

Working through challenging behaviors with young children can be a demanding part of an early childhood professional's work. This workshop will focus on tools for defining and understanding challenging behavior, developing strategies for preventing potential "trouble spots," creating routines, transitions, and classroom culture that promotes social emotional competency, and identifying strategies to help specific children manage challenging behavior.

Core Knowledge Areas:

1. Developing as a Professional
2. Building Family & Community Relationships
3. Teaching & Learning
4. Promoting Child Growth & Development
5. Observing, Documenting & Assessing

Directors' & Leadership Collaboratives

Child Care Aware of NH offers collaborative meetings for Directors, Administrators, and other Early Childhood Leaders from September to June each year. These meetings are designed by each group in the region to reflect area needs and interests and to provide program leaders with Child Care Aware of NH program updates, essential local and state information with professional development opportunities. Registration is online at www.nh.childcareaware.org through the NH Professional Registry. The registration window does not need to be open for registration to begin. Information on topics and trainings being covered varies based on group interests. Please see the below dates, times and locations to find a meeting near you. Please note that locations and dates may change around holiday times or due to group needs. Please note that the NH Professional Registry is the best place to view collaborative meetings each month as changes may occur due to weather and other unforeseen reasons.

1st Week of the Month			
Day of Week	**Town**	**Location**	**Time**
Tuesday	Manchester	Granite State College, 195 McGregor Street, Millwest Building, 3rd Floor, Manchester, 03102 *Location may vary based on availability, please use NH Professional Registry information to verify location each month. **Topics:** Standards of Practice Training Series (Feb. & March), Early Learning Standards, Teacher Competency and other topics determined by group.	9:30 to 11:30am
