STUDENTS

Successful Credit Recovery

Middle School and High School Students may recover needed credits by taking courses online. Course content is tailored to each student's gap in understanding and PA-Certified teachers work to ensure each student's success.

Flexibility & Convenience

Students may access course materials anytime (24/7) they are connected to the Internet. Work is not confined to school-day hours enabling students to work at their own pace. Students may even continue to make progress in their coursework during a family vacation or an out-of-town visit with friends or relatives. A teacher is available to help each student stay on track.

Local Support

Students and parents can rely on the Montgomery County Intermediate Unit for ongoing support. MCIU provides:

- Face-to-face student orientation
- Technical assistance
- Trouble-shooting support
- Monitoring of student progress

Credit Recovery Course Selection

Student Name: _____

HIGH SCHOOL
