USP Product Catalog App Now Available for Android

At the office or on the job site, the USP catalog app puts a menu of our top products at your fingertips. You can quickly search the USP Structural Connector product line on

your iPhone, iPad or Android devices. The free USP app features detailed product and application illustrations, installation instructions, updated fastening schedules, load ratings and reference conversion. EWP and plated truss connectors included. Download at the iTunes App Store or Google Play. Search for USP Catalogs. This is one more way we provide better technology for better building.
