

MiTek's Houston Warehouse is Fully Operational, Offering Seven-State Delivery of USP Structural Connectors & Epoxy, Truss Connector Plates, and Hardy Frame® Products

The Expanded Warehouse Offers Same-Day or Next-Day Service for Customers in TX, LA, AL, OK, AR, NE, and MO

CHESTERFIELD, MO – June 8, 2016 – [MiTek](#) today announced that its expanded Houston, TX warehouse is now fully operational, providing more stock and improved delivery for a wide range of products, including [USP Structural Connectors](#), [USP Epoxy](#) and fasteners, [MiTek truss connector plates](#), and [Hardy Frame](#) shear wall systems.

The new warehouse offers same-day or next-day delivery service to a wide range of states, including Texas, Louisiana, Alabama, Oklahoma, Arkansas, Nebraska, and Missouri. As an added convenience, the warehouse will also offer local customers the expediency of “will call” delivery.

MiTek chose to expand the Houston warehouse to better service the needs of dealers, builders, local contractors and DIY markets, where MiTek has seen increased demand for its products, specifically those which address the stringent requirements of the coastal wind codes.

MiTek's Houston warehouse features an advanced inventory monitoring and processing system, which accelerates fulfillment times across multiple MiTek product lines.

“MiTek has been adding more SKUs and shortening delivery times to an expanded list of locations and states, and our Houston facility provides yet one more part of our plan to deliver exceptional and prompt order fulfillment across multiple states,” said Todd Asche, Senior Vice President of Operations. “Plus, we now have advanced inventory monitoring and processing systems in place, which accelerate fulfillment times across multiple MiTek product lines.”

About MiTek
