

LWVFC Fundraiser:

“Extreme Realities”

Film Screening & Panel Discussion

Sunday, March 6
3 p.m.

George Mason High School Auditorium

Unprecedented extreme weather events are leaving a trail of destruction throughout the world. Are these merely once in a hundred year storms or an early warning signal – a tipping point?

This film, narrated by Matt Damon, investigates the link between severe weather, climate change, and threats to our national security. Our expert panel will further explore these issues with the audience.

Moderator:

Richard Meserve – President Emeritus, Carnegie Institution of Science

Panel Members:

John C. Gannon –Former Chair, National Intelligence Council

Dr. Phil Sharp – President, Resources for the Future

Mona Sarfaty, M.D. – Director of GMU University Program on
Climate and Health

**** Proceeds will benefit local voter services activities ****
