

Kathryn Anne's Favorite Chocolate Heath Bar Cake

- 1 German chocolate cake mix
- 6 – 7 Heath candy bars crumbled
- 1/2 can of Eagle Brand Milk
- 1/2 jar of caramel ice cream topping
- 8 oz. container of Cool Whip

Bake German chocolate cake mix in 9x13 cake pan following baking instructions as directed on cake box. While cake is baking, break and crumble *Heath candy bars. Reserve enough broken candy bar bits to top off the Cool Whip topping.

Mix together the broken pieces of the Heath candy bar, ½ can of Eagle Brand Condensed Milk and ½ jar of caramel topping in a bowl and set aside. After cake has been baked and it is still warm, poke holes throughout the cake and spoon in the Eagle Brand/caramel and Heath candy bar mixture into the holes.

After cake completely cools, top with Cool Whip and sprinkle top of cake with the remaining Heath candy bar bits.

Note: *You may substitute the Heath candy bars with Butterfinger candy bars.
