

C-SPACE Purpose

The mission of C-Space is to provide University Libraries users the opportunity to explore emerging technologies while promoting a superior user experience and supporting the educational, cultural and research needs of the University.

Color Printing

High quality color printing is available for photo and other color printing. Photo paper will be available for purchase at the Circulation Desk. The maximum print size for this printer is Letter (8.5 in x 11 in.)

3D Printing

C-Space offers access to a Makerbot Replicator 5th Generation 3D printer and a Makerbot Digitizer Desktop 3D Scanner. More information about 3D printing policies is available on the C-Space guide at:

<http://libresources.wichita.edu/>

Advanced Development zone

The Advanced Development Zone is designed for prototype development. This zone has two high performance workstations: the CAD workstation and the Android workstation. A complete list of software is displayed by each workstation and listed on the website.

Android workstation

The Android Workstation is loaded with software that facilitates mobile application development, coding and simulation.

CAD workstation

The CAD workstation is loaded with software focused on graphic intense development such as game creation, fractal art, CAD and prototype development.

Media Zone

The Media Zone provides software for media editing, recording, basic website development, and publishing. The zone contains two iMac workstations and a Windows 10 workstation.

Multi OS Zone

The Multi OS Zone is designed to provide users with the opportunity to learn about and work with different operating systems. The zone is equipped with 8 workstations supporting multiple virtual machines with options for multiple platforms. The zone provides access to Linux and Windows platforms.

Sound Booth

The Sound Booth isolates sound and significantly reduces ambient noise. The Sound Booth may be used for voice and live music recording or for rehearsals. The Sound Booth includes an iMac, Yamaha keyboard, digital drum, microphone, Xenyx UFX1204 sound mixer, and music monitor. Reservations for the Sound Booth can be made using the online calendar on the C-Space website and are required for use.

Eligibility

The C-Space is open to all currently enrolled students and to employees of Wichita State University.
