

NAWCWD Long Range Acquisition Forecast (LRAF) Requirements

Distribution Statement A - Approved for public release, distribution is unlimited.

Weapons Systems Integration and Software Support (WSISS)

Weapons Systems Integration and Software Support for aircraft IPTs at China Lake/Point Mugu which includes F/A-18, AV-8, AH-1, F-35 and Unmanned Systems. Requirements consist of tasking that has been broken out from the Original Equipment Manufacturers and includes tasks such as integration of weapons, avionics, sensors and targeting systems, and system hardware and software design, development, maintenance, service, setup and operation.

Combat Environment Instrumentation Systems (CEIS)

Combat Environment Simulation Projects' objective is to provide research, development, delivery, sustainment, and upgrade of threat systems, range instrumentation equipment, range command and control equipment, data routing, storage and display equipment and associated software used for pre-deployment aircrew warfighter training and weapons systems test and evaluation. Specifically, CEIS provides time-space-position information instrumentation and unmanned threats and targets.

AEA Weapon and Electronic Systems

Requirements analysis, design, development, integration, and testing of tactical operational flight software and mission data for electronic warfare (EW) systems. EW weapon systems to be supported include: EA-6B, EA-18G, E-2C, MH-60R, BAMS, P-8A, Unmanned Air Systems, F-35, flight simulators, training systems, other advanced electronic attack derivatives and initiatives.

Acquisition Strategy

- Full and Open Competition
- Cost Plus Fixed Fee
- TDB

Period of Performance

- Five Years
