

Wednesday

Sept. 16th

1:15pm

Join Earth Quaker Action Team in a creative nonviolent direct action as we put the pieces together needed to **Power Local Green Jobs.**

Will PECO be the missing piece?

**Meet at 30th St Station -
market st side**

POWER LOCAL GREEN JOBS

*Rooftop solar -
good for the climate,
good for jobs!*

Earth Quaker Action Team is challenging energy corporations to make a major shift to locally generated solar rooftop power.

We are demanding PECO, Philadelphia's local electric utility, commit to supporting the local economy by purchasing energy credits from rooftop solar in North Philadelphia. PECO must prioritize installation by companies training and employing local workers, especially unionized workers and people of color. This will provide much-needed jobs and income to neighborhoods which have faced decades of disinvestment and racial barriers to employment.
