

Seattle Cancer Care Alliance joins our value-based networks

We are pleased to announce our two cost saving, value-based networks – Heritage Signature (Individual and Small Group) and Heritage Prime (Large Group 51+) – have both expanded to include another leading health system. Seattle Cancer Care Alliance joins our value-based networks effective **January 1, 2016**.

The provider network your clients choose is just as important as their health plan selection. Networks are a key driver in cost control and member satisfaction. Our Heritage Signature and Prime networks are designed with two things in mind — great value for your client's healthcare dollar and statewide access to excellent care. Premera is fully committed to ensuring your clients have access to high-quality care while keeping costs down.

Thank you for partnership with us.
