

## **ASQ and ASQ-SE Requirements**

If you are using the *Ages and Stages Questionnaire* (ASQ) to meet the child developmental screening Essential Standard both the ASQ and ASQ-SE are required.

To meet the child developmental screening Essential Standard (L01 in ECE and L02 in FCC/LFCC) for programs using the *Ages and Stages Questionnaire* (ASQ), both the ASQ-3 and ASQ-SE are required to be completed for each child (ages 1 month to 5 ½ years) enrolled in the program.

The ASQ-3 is used to screen children for developmental delays and the ASQ-SE focuses on children's social and emotional development.
