

## **Partnership Program - Canada & Germany Water & Waste Water in Eastern Canada**

The program has been initiated and is supported by the **German Federal Ministry for Economic Affairs and Energy**.

<p><b>Conference</b></p> <p><b>June 12, 2014, 9:00 am to 5:00 pm</b>  <b>Ontario Investment and Trade Center,</b>  <b>Toronto, ON</b></p> <p>1<sup>st</sup> Canadian German Conference on Water and Waste Water Management</p>	<p><b>Individual Meetings</b></p> <p><b>June 10 to 13, 2014</b>  <b>Toronto, ON</b></p> <p>Meet German companies at individual meetings in Toronto and develop synergies as well as business partnerships!</p>
--	--

From June 9 to 13, 2014, the Canadian German Chamber of Industry and Commerce together with German Water Partnership is bringing a German delegation of industry experts in the field of sustainable water technologies to Ontario.

Our delegation participants want to meet their Canadian counterparts in B2B meetings in order to evaluate potential cooperation.

Company Name	Area of activity	Products / Services	The company is looking for partners:	Contact Information:
<p>Aqua Service Winkler GmbH</p> 	<p><i>Aqua-Service Winkler</i> offers biological waste water treatment systems. The company uses state of the art technology for septic systems to offer green, efficient, reliable and affordable products and services.</p>	<ul style="list-style-type: none"> <li>Septic Systems for residential and commercial applications</li> <li>Biological Solutions for Wastewater treatment</li> <li>Water filter</li> </ul>	<ul style="list-style-type: none"> <li>Septic tank manufacturers</li> <li>Distribution partners</li> </ul>	<p><b>Gunter Winkler</b> President</p> <p><a href="http://www.aqua-winkler.ca">www.aqua-winkler.ca</a></p>
<p>DB Sediments GmbH</p> 	<p><i>DB Sediments</i> offers a patented ecologically sound solution for sediment management in rivers and reservoirs. It works with specially equipped hydraulic tools. Further erosion is prevented. The reservoir does not have to be emptied during the process.</p>	<ul style="list-style-type: none"> <li>Sedimentation equipment</li> <li>Full Service Sedimentation Solutions</li> <li>Sedimentology Consulting</li> </ul>	<ul style="list-style-type: none"> <li>Reservoir operators,</li> <li>River authorities</li> <li>Operators of hydro power plants</li> </ul>	<p><b>Dr. Dietrich Bartelt</b> Founder and Partner</p> <p><a href="http://www.db-sediments.com">www.db-sediments.com</a></p>
<p>GD German Desalination GmbH</p> 	<p><i>GD German Desalination</i> offers economical and environmental-friendly solutions for desalination. The installations are small, highly efficient (distillate &lt; 100ppm), easy to install and modular. The equipment comes in compact sizes and with high efficiency at low cost and maintenance.</p>	<ul style="list-style-type: none"> <li>Multi effect desalination method (MED)</li> <li>1 – 100 m<sup>3</sup> per day</li> <li>Small, highly efficient, easy to install and modular</li> </ul>	<ul style="list-style-type: none"> <li>Manufacturers</li> <li>Suppliers</li> <li>Operators</li> <li>Distribution partners</li> </ul>	<p><b>Norbert Lehmann</b> Senior Consultant</p> <p><a href="http://www.gdg.ag/">http://www.gdg.ag/</a></p>
