Registration Form – Introduction to NAFTA Training

How many times have you shipped to Canada/Mexico and simply filled out a NAFTA certificate based on your customers instructions? Did you have any supporting documentation showing how you researched the rules of origin and obtained any manufactures affidavits proving your goods qualify for NAFTA? Have you documented your research on your bill of materials as to how your goods qualify? Do you know if your goods have a duty associated with them or where to go to get this information?

Program overview

This program will help you be in full compliance with all NAFTA regulations. You will know where to go and what to look for to be able to determine if your products qualify for the benefits of NAFTA. Most companies are exposing themselves unnecessarily to NAFTA penalties. In some cases your goods have low or zero duty already and therefore no need to exposure your company to potential NAFTA violations or to fill out a NAFTA certificate if your goods do not qualify.
