Responding to an Outbreak: Lessons Learned from Scott County

July 29, 2015
12:30—2:00 pm Eastern Time

OVERVIEW

This webinar will provide insight into the HIV and Hepatitis-C outbreak in Scott County, Indiana. The goal of the webinar is to provide participants with recommendations for monitoring data and trends in their communities to assist in the identification of an outbreak. Participants will receive guidance from state and local perspectives on the need for collaboration among public health personnel and the community resources that are critical when responding to an outbreak.

TOPICS

- Discuss the HIV and Hepatitis-C outbreak in Scott County, Indiana
- Describe CDC recommendations for surveillance of data and other attributes of a community at risk for a similar outbreak
- Identify key staff, services, and community resources that are critical to mobilizing a public health response
- Explain the correlation and incidence of Hepatitis-C infection among people who inject drugs
