

Join us for a professional development workshop focused on inquiry-based STEM instruction with a commitment to gender equality. This workshop is based on the hit PBS series, *SciGirls* whose goal is to encourage girls to choose careers in science, technology, engineering and math (STEM).

SciGirls is a PBS Kids television series out to change how tweens think about science, technology, engineering and math, or STEM! In each episode, join bright, curious *real* girls in putting STEM to work. Then check out the website to play games, watch episodes, share projects, and connect with other *SciGirls* in a totally safe social networking environment!

SciGirls Trainings integrate inquiry-based STEM instruction with a commitment to gender equity. Educators attending *SciGirls* Trainings will learn the latest research for exciting and engaging girls (and boys) in STEM; experience hands-on STEM activities; and gain access to free materials for hands-on, video-enhanced activities that put a creative twist on teaching STEM.

There is no fee for the training. We will be providing lunch for a \$10 fee. You are able to bring your own lunch if you would like.

Training will be held on Wednesday, August 12th from 9A-4P at the Terre Haute Children's Museum (727 Wabash Ave. Terre Haute, IN 47807).

Please contact Abby Koester at akoester@terrehautechildrensmuseum.com for additional information or questions.
