Participants will be introduced to nine essential areas of training: helping roles, confidentiality and referrals, communication skills, decision-making, team-building, ethics, group management, group process, and organizational dynamics. Each participant will learn a variety of techniques that will make any training they lead for youth more fun while enhancing learning. NAPPP Programmatic Standards and Ethics will provide the foundation for all skills and strategies. Bring your ideas and creativity. Participants will earn the Certified Peer Program Educator (CPPE) credential. The CPPE certificate can be received after completion of an application form and paying a \$35 credentialing fee at the end of training, or by sending the application and fee to NAPPP after training. Yearly membership in NAPPP is \$50/year and CPPE renewal is \$20/year.

WHAT IS PEER HELPING?

Peer Helping is a variety of supportive services initiated by peers of elementary, middle and high school students in diverse settings. They are young people who are trained and supervised by professionals who adhere to the ethics and standards endorsed by the National Association of Peer Program Professionals. Peer Helpers often become preventative agents who identify problems and encourage others to seek the necessary help from appropriate professionals. Peer Helper programs provide students with opportunities for learning, guidance, emotional support, and growth, which translates to reduced drug and alcohol involvement, reduced cases of sexually transmitted diseases and unwanted pregnancies, reduced conflict, higher academic achievement, increased understanding of differences, and increased service to others. By helping others in programs that are peer-led and peer-run, Peer Helpers increase their own self-confidence and leadership skills.
