

Star Time Performance

Musical Theater, Singing and Acting Technique Workshop

Two-day workshop for serious young performers

(Grades 5-10) \$250

Saturday May 14 & 15

10:00-4:30

Do you love performing? Are you looking for honest feedback to improve your skills? Do you know how to grow and refine your skills and talent?

At this workshop you'll learn the skills that distinguish a successful performer from the rest:

- **Build Confidence:** Learn about 'Performance Mode' - the ability to incorporate direction and criticism into your performance and avoid tension in the throat. Stop sabotaging your performance with doubt. Look forward to auditioning.
- **Build Voices:** Strengthen your sound, increase your range, develop your head and belt voice. Learn the Commands for singing and acting that will give your voice strength and endurance. Find the optimal function of your voice.
- **Act Like You Love It:** Learn how to replace nerves by focusing on your skills. Get the part, audition with confidence, and show yourself in the best light.
- **Learn from Experience:** Receive honest and helpful feedback about your skills, have the opportunity to watch and critique others. Learn from directing and creating your own work – all in a safe and supportive environment.
- **Hear from the Pros:** Take part in Q&As with professional directors and actors on Broadway, DC, and national theater productions!

Performance Workshop Leaders:

Chrissellene G. Petropoulos – vocal coach, voice teacher, Director of Vocal Mastery Studios

Karen Harris – singer, director and educator

And special guests!
