CALL FOR ABSTRACTS!

Neural Engineering facilitates the development of new clinical technologies for the assessment of neurological function and the treatment of neurological diseases. To energize fundamental aspects of neural science, engineering and reparative medicine, and facilitate collaborations across various disciplines, the University of Miami is hosting its first Research Symposium in Neural Engineering and invites you to be a part of this event.

OCTOBER 13, 2016

8:00AM – 7:00PM

LOIS POPE AUDITORIUM

UNIVERSITY OF MIAMI MEDICAL SCHOOL

Featured Speakers

Jonathan Wolpaw, MD, Director, National Center for Adaptive Neurotechnologies, NY State

Justin Sanchez, PhD, Acting Deputy Director, Biological Technologies Office, DARPA
