

HEALTH ALERT OVERDOSE DEATHS

FENTANYL IS BEING SOLD IN:

-  Pill form as fake oxys, Xanax, Norco and other club drugs
-  Powder form as heroin or fent
-  Powder form as mixed into drugs like crystal meth and coke

There have been recent reports of over a dozen overdose deaths related to fentanyl laced pills in Northern California.

FENTANYL is 100 times more potent than morphine. Please tell friends who take pills there are fentanyl containing counterfeits on the market in the Bay Area and possibly in Contra Costa.

There is no quality control or regulated manufacturing process. These drugs may contain toxic contaminants or have different levels of fentanyl in each batch. Even pills produced in the same batch may have little to lethal levels of fentanyl.

WHAT YOU CAN DO:

- Get Narcan – available at your local pharmacy
- Call 911
- Give Rescue Breaths every five seconds
- Dispose of unused pills appropriately or turn over to law enforcement
- Call the DEA tip line at 530-722-7577 if you believe you have counterfeit prescription drugs
- For help with addiction call 1-800-846-1652.

Counterfeit pills are almost identical to those administered by pharmacies.

Pills from Contra Costa County that tested positive for Fentanyl.
