End-Stage Renal Disease
Quality Incentive Program

Previewing Your Facility’s Payment Year 2016 Performance Data

July 9, 2015
Disclaimer

This presentation was current at the time it was published or uploaded onto the web. Medicare policy changes frequently so links to the source documents have been provided within the document for your reference.

This presentation was prepared as a service to the public and is not intended to grant rights or impose obligations. This presentation may contain references or links to statutes, regulations, or other policy materials. The information provided is only intended to be a general summary. It is not intended to take the place of either the written law or regulations. We encourage readers to review the specific statutes, regulations, and other interpretive materials for a full and accurate statement of their contents.
Presenters

Manager, Business Analysis and Quality Assurance
Edaptive Systems, LLC
Agenda

To provide an overview of the Payment Year (PY) 2016 End-Stage Renal Disease (ESRD) Quality Incentive Program (QIP) and describe what to expect during the Preview Period

This National Provider Call (NPC) will discuss:

- General program information
- Details about PY 2016 measures and scoring
- Understanding your Performance Score Report (PSR)
- How to submit formal inquiries and clarification questions
- Activities following the Preview Period
- Where to go for more help and information
Introduction

Jim Poyer
CMS Objectives for Value-Based Purchasing

- **Identify and require reporting** of evidence-based measures that promote the adoption of best practice clinical care
- **Advance transparency of performance** across all sites of care to drive improvement and facilitate patient decision-making around quality
- **Implement and continually refine payment models** that drive high standards of achievement and improvement in the quality of healthcare provision
- **Stimulate the meaningful use of information technology** to improve care coordination, decision support, and availability of quality improvement data
- **Refine measurements and incentives** to achieve healthcare equity, to eliminate healthcare disparities, and to address/reduce unintended consequences

- Paying for quality healthcare is no longer the payment system of the future; it’s the payment system of today.
- The ESRD QIP is the leading edge of payment reform and can serve as an example to the healthcare system.
Six Domains of Quality Measurement Based on the National Quality Strategy

- **Care Coordination**: Promoting effective communication and coordination of care
- **Population/Community Health**: Working with communities to promote wide use of best practices to enable healthy living
- **Safety**: Making care safer by reducing harm caused in the delivery of care
- **Affordability**: Making quality care more affordable for individuals, families, employers, and governments by developing and spreading new healthcare delivery models
- **Patient and Family Engagement**: Ensuring that each person and family are engaged as partners in their care
- **Treatment and Prevention of Chronic Disease**: Promoting the most effective prevention and treatment practices for the leading causes of mortality, starting with cardiovascular disease
ESRD QIP Overview

Tamyra Garcia
ESRD QIP Legislative Drivers

The ESRD QIP is described in Section 1881(h) of the Social Security Act, as added by Section 153(c) of the Medicare Improvements for Patients and Providers Act of 2008 (MIPPA)

• **Program intent**: Promote patient health by providing a financial incentive for renal dialysis facilities to deliver high-quality patient care

• **Section 1881(h)**:
  – Authorizes payment reductions if a facility does not meet or exceed the minimum Total Performance Score (TPS) as set forth by CMS
  – Allows payment reductions of up to 2%
Overview of MIPPA Section 153(c)

MIPPA requires the Secretary of the Department of Health and Human Services (HHS) to create an ESRD QIP that will:

- **Select measures**
  - Anemia management, reflecting Food and Drug Administration (FDA) labeling
  - Dialysis adequacy
  - Patient satisfaction, as specified by the HHS Secretary
  - Iron management, bone mineral metabolism, and vascular access, as specified by the HHS Secretary

- **Establish performance standards** that apply to individual measures
- **Specify the performance period** for a given payment year (PY)
- **Develop a methodology** for assessing total performance of each facility based on performance standards for measures during a performance period
- **Apply an appropriate payment percentage reduction** to facilities that do not meet or exceed established total performance scores
- **Publicly report results** through websites and facility posting of performance score certificates (PSC)
Program Policy: ESRD QIP Development from Legislation to Rulemaking

- MIPPA outlines general requirements for ESRD QIP (applied on a PY basis)

- HHS components review proposals, including the Office of the General Counsel (OGC) and the Centers for Disease Control and Prevention (CDC)

- CMS publishes proposed rule via Notice of Proposed Rulemaking (NPRM) in the Federal Register

- Public afforded 60-day period to comment on proposed rule

- CMS drafts final rule (addressing public comments), which passes through HHS internal clearance process

- CMS publishes final rule in the Federal Register
Scoring Facility Performance

Collect data from Medicare reimbursement claims, National Healthcare Safety Network (NHSN), CROWNWeb, and vendors who report data for the In-Center Hemodialysis Consumer Assessment of Healthcare Providers and Systems (ICH CAHPS)

Release estimated scores and payment reduction in a Preview Performance Score Report (PSR) to facilities

Conduct 30-day Preview Period for facility review of calculations and inquiries

Adjust scores where required; submit payment reductions to Center for Medicare (CM)

Release final results in a Final PSR for facilities and PSCs for patients (posted in English and Spanish in a prominent patient area in each facility)
PY 2016 Overview

Tamyra Garcia
PY 2016 Preview Period Timeline

7/15/2015
Preview Period opens

7/15/2015
Preview PSR ready for download from QualityNet.org

8/1/2015
CMS recommends submitting clarification questions and systemic clarification questions by 8/1/15

8/1/2015
ALL clarification questions and formal inquiries must be received

8/17/2015
5:00 P.M. EDT
Preview Period closes

CMS will respond to questions and inquiries received before the deadline; responses to formal inquiries may be delivered after the Preview Period has elapsed
PY 2016: Measures Overview

Clinical Measures – 75% of Total Performance Score (TPS)
1. Anemia Management – Hgb > 12 g/dL
2. Kt/V Dialysis Adequacy Measure Topic – Adult Hemodialysis
3. Kt/V Dialysis Adequacy Measure Topic – Adult Peritoneal Dialysis
4. Kt/V Dialysis Adequacy Measure Topic – Pediatric Hemodialysis
5. Vascular Access Type Measure Topic – Arteriovenous Fistula (AVF)
6. Vascular Access Type Measure Topic – Catheter ≥ 90 days
8. Hypercalcemia

Reporting Measures – 25% of TPS
1. In-Center Hemodialysis Consumer Assessment of Healthcare Providers and Systems (ICH CAHPS) Patient Satisfaction Survey (expanded)
2. Mineral Metabolism – Serum Phosphorus
3. Anemia Management

New measure for PY 2016
PY 2016 Clinical Measures: Directionality

- Kt/V Dialysis Adequacy (all)
- VAT – Fistula

- Anemia Management
- VAT – Catheter
- NHSN Bloodstream Infections
- Hypercalcemia

Higher Rate Indicates Better Care for Measures

Lower Rate Indicates Better Care for Measures
PY 2016: Achievement and Improvement Scoring Methods

Facility gets the BETTER score from the two methods

**Achievement Score:** Points awarded by comparing the facility’s performance rate during the performance period (CY 2014) with the performance of all facilities nationally during the comparison period (CY 2012)

- Rate better than or equal to benchmark: 10 points
- Rate worse than achievement threshold: 0 points
- Rate between the two: 1 – 9 points

**Improvement Score:** Points awarded by comparing the facility’s performance rate during the performance period (CY 2014) with its own previous performance during the comparison period (CY 2013)

- Rate better than or equal to benchmark: 10 points (per achievement score)
- Rate at or worse than improvement threshold: 0 points
- Rate between the two: 0 – 9 points
PY 2016 Scoring and Payment Reduction Methodology

**Clinical**

- **Measure Topic:**
  - Kt/V Dialysis Adequacy
  - Vascular Access Type

- **Individual Measure Scores**
  - Anemia Management
    - Hemodialysis
    - Peritoneal Dialysis
    - Pediatric Dialysis
  - Access via AVF
  - Access via catheter
    - NHSN Bloodstream Infections
    - Hypercalcemia

- **Measure Calculations**
  - Generally, each clinical measure scored by either achievement or improvement (whichever results in the higher score for facility); see two exceptions

- **Total Category Weight**
  - 100 pts.
  - 54 pts. (min. TPS)

- **Payment Reduction Percentage**
  - 75%
  - = 75%
  - 25%
  - = 25%

**Reporting**

- **Individual Measure Scores**
  - ICH CAHPS Survey
  - Mineral Metabolism
  - Anemia Management

- **Measure Calculations**
  - Each reporting measure scored by satisfying requirements according to points system

- **Total Performance Score (TPS) is the sum of the weighted totals from both measure categories**

- Reductions:
  - 0.5%
  - 1.0%
  - 1.5%
  - 2.0%

---

MLN Connects®
Performance Score Report Contents

• Your PSR contains the following information:
  – Your performance rate in 2014 on each PY 2016 clinical measure
  – An explanation of how this rate is translated into your score on both achievement and improvement for each clinical measure
  – A record of attestations and data your facility recorded for the three reporting measures
  – An explanation of how your measure scores are weighted and translated into your TPS
  – Information regarding if and/or how Medicare payments to your facility will be affected as a result of your TPS

• Detailed information about how the performance rates were calculated is available in the *Guide to the PY 2016 Performance Score Report*, which will be available on [QualityNet.org](http://QualityNet.org)
Your facility’s performance scores will be detailed in the Preview PSR using tables and explanatory text.

*The payment reduction percentage is currently projected based on current scores and weighting in this report. The Preview Period is your chance to submit clarification questions, as well as a single formal inquiry regarding the accuracy of the score calculations for your facility.
Preview Period Details

Tamyra Garcia
Accessing the ESRD QIP System

• CMS will release ESRD QIP 1.0.0 prior to the start of the Preview Period

• From www.qualitynet.org, select “Log in to QualityNet Secure Portal”

• Approved users will access the site with their ESRD QIP QualityNet Information Management System (QIMS) ID and password, along with two-factor authentication, to access the Preview PSR
Clarification Questions

• Purpose: Ensure that facilities completely understand how their measure scores were calculated

• Only the Facility Point of Contact (POC) may submit clarification questions on the facility’s behalf
  – Note: A facility can have only one POC, but a user may be the POC for multiple facilities

• Facilities are not limited in the number of clarification questions they may pose
Systemic Clarification Questions

• Purpose: Indicate that a systemic error occurred in the way that measure scores were calculated that may impact multiple facilities

• Only Facility POCs may submit systemic clarification questions

• Facilities are not limited in the number of systemic clarification questions they may pose
Formal Inquiry

• Purpose: Provide CMS with an explanation of why the facility believes an error in calculation has occurred
  – This typically occurs after submitting a clarification question and/or requesting a patient list

• Each facility may submit only ONE formal inquiry at QualityNet.org

• Formal inquiries must be submitted before 5:00 p.m. (EDT) on August 17, 2015

• Only the Facility POC may submit the formal inquiry on behalf of the facility

• The Facility POC must indicate approval of the Facility Manager when submitting the formal inquiry

• Once a formal inquiry has been submitted, the facility cannot recall it
QualityNet.org System Assistance

• Review the *QIMS Quick Start Guide* and *QIMS User Manual* available on the ESRD Facilities page of [www.qualitynet.org](http://www.qualitynet.org)

• QualityNet Help Desk options:
  – Phone: (866) 288-8912
    7:00 a.m. – 7:00 p.m. (CDT)
  – Email: qnetsupport-esrd@hcqis.org
  – Mail:
    QualityNet Help Desk

Follow-Up Activities and Responsibilities

Tamyra Garcia
Activities Following the Preview Period

• CMS will review any outstanding inquiries, then finalize facility TPS and payment reduction percentages
  – Once scores are finalized, a final PSR will be posted for download on the ESRD QIP system that will outline your facility’s information
  – Once issued as final, a PSR cannot be changed

• In December 2015, each facility’s Performance Score Certificate (PSC) will be posted for download on the ESRD QIP system

• By the end of January 2016, performance score data will be made available to the public on http://www.medicare.gov/Dialysis

• Payment reductions (if applicable) are applied to dialysis services beginning January 1, 2016, and will remain in place for the duration of the year
Performance Score Certificate

• It is your facility’s responsibility to print your PSCs in mid-December
  – The certificate must be posted within 15 business days of their availability via the ESRD QIP system and remain posted throughout the year
  – The certificate must be prominently displayed in a patient area
  – English and Spanish versions must be posted

• The certificate contains:
  – Your TPS and score on each measure
    ❖ It does not contain detailed information about how the scores were calculated
  – National average scores for comparison

• Your patients may have questions about the certificate
  – CMS recommends that you educate your staff on the performance scores so that they can answer patient questions
Sample Performance Score Certificate

A Sample Facility
2016 Chief Medical Officer
Deputy Administrator for Innovation and Quality

What is the purpose of the End-Stage Renal Disease (ESRD) Quality Incentive Program (QIP)?
The ESRD QIP links a dialysis facility’s payment to performance on measures of its quality of care. When a facility doesn’t meet established ESRD QIP performance standards, CMS will lower that facility’s payments by up to two percent for the entire year.

How are facilities scored?
The Total Performance Score is a single number that tells how a facility performed overall. The highest possible Total Performance Score is 100 points. Each facility earns points for its clinical performance in 2014 based on two factors:
- How close its rate in 2014 (facility Percent) comes to the national rate in 2012 (National Median)
- Its improvement relative to previous performance in 2013

Even if a facility’s performance rate on a clinical measure of quality does not meet the National Median, a facility still can receive a high score if its performance rate from this year is considerably better than its previous performance rate. For example, two facilities with similar performance rates on a measure might receive different scores based on differences in their prior performance. Therefore, Total Performance Scores should not be used to compare different facilities. Please see the Dialysis Facility Compare website for more information about comparing facilities in your area.

Quality reporting points are earned if the facility reported required information. Points are earned for reporting internal information, reporting information to the Centers for Disease Control and Prevention, confirming that patient surveys were administered, and reporting calcium and phosphorus levels of patients:

Some facilities may not have enough data to calculate a specific measure score or Total Performance Score, or some measures will not apply to every facility. This does not reflect the quality of care provided in those facilities. Low-volume facilities treating between 11 and 25 eligible cases may be eligible for an adjustment to their scores.

Which facilities will receive an ESRD QIP Certificate?
Only facilities that were active during calendar year 2014 will receive a Total Performance Score and a Performance Score Certificate (TPSC) in December 2015.

Facilities that began to care for Medicare patients after June 30, 2014, won’t receive a Total Performance Score.

How can I get more information?
To learn more about the ESRD QIP and other CMS quality initiatives, please do one of the following:

- Visit the ESRD Network Coordinating Center (NCC) website at: http://www.esrdncc.org/
- Visit the Dialysis Facility Compare website at: http://www.medicare.gov/DialysisFacilityCompare
- Visit the ESRD QIP section of the CMS.gov website at: http://www.cms.gov/OutpatientQualityStandards/Patient-Assessment-Instruments/ESRDQIP/index.html

Note: Dialysis facilities are required to post both parts of this certificate prominently in a patient area. This certificate expires December 31, 2015.
Recap: Facility Responsibilities

- Establish your QIMS account to access QualityNet.org and ESRD QIP 1.0.0
- Facilities and Networks can access their Preview PSRs beginning July 15
  - Recommendation: Submit clarification questions by August 1 to receive a prompt response and to have enough time to submit a formal inquiry if necessary
- If you believe there is an error in your score, submit a single formal inquiry
  - If you are contacted for follow-up information, respond in a timely manner so that your inquiry can be given due consideration
- Preview Period ends August 17 at 5:00 p.m. (EDT)
- Download, print, and post your English and Spanish PSCs within 15 business days of their availability via the ESRD QIP system
- Educate your staff about the ESRD QIP so they can answer patient questions about the publicly posted certificate
Key ESRD QIP Dates to Remember

• PY 2015 payment reductions applied (January 1 – December 31, 2015)

• PY 2016 Preview Period (July 15 – August 17, 2015)

• PY 2017 Performance Period (January 1 – December 31, 2015)

• PY 2019 Rulemaking
  – Proposed rule published (displayed June 26, 2015)
  – 60-day comment period (ends August 25, 2015)
  – Final rule published (November 2015)

• PY 2016 PSC available for download mid-December 2015; post within 15 business days

PY 2016 payment reductions are effective January 1, 2016
