

Good morning. I wanted to announce today that we've hired our next News Director. **Alan Wagmeister** will head news for 21 Alive, NBC 33 and our digital and social media news efforts.

Alan comes to NE Indiana from Billings, Montana, where he has been the KULR-8 News Director for the past 3 years. Before that, he was the Morning Executive Producer for a cable news channel that serves the greater New York City Metro. Alan also spent 8 years in local news as the Special Projects Producer for WFMY in Greensboro, NC. Alan started his career at the network level, first with ABC News on several news magazine shows, then at NBC producing hour long documentaries. If you've watched "Real Sports with Bryant Gumbel"... well he worked on that too. A lot of time and treasure was spent looking for the "very best fit" for our company and our needs, and Alan rose to the top. We're going to benefit immensely, no doubt.

DON OSIKA
