CyberPatriot VIII National Finalist Teams announced; Event set for April 11-13

The results are in! Here are the CyberPatriot VIII National Finalist teams.

The twelve Open Division, thirteen All Service Division and three Middle School Division National Finalist teams represent schools and other organizations from California, Colorado, Florida, Iowa, Louisiana, Maryland, Massachusetts, Missouri, New Jersey, Texas, and Manitoba (Canada).

At this year's National Finals Competition, teams will compete to defend virtual networks and mobile devices (AT&T) from a professional aggressor team. The National Finalists will also face-off in three additional competition components: the Cisco Networking Challenge and the Leidos Digital Forensics Challenge, both of which return from previous seasons. Facebook will also be hosting a cybersecurity event which will factor into the teams' cumulative scores.

The event will take place from April 11-13 at the Hyatt Regency Inner Harbor in Baltimore, Md. The actual day of competition will be Tuesday, April 12, and the winners will be announced at a high-profile awards banquet the evening of Wednesday, April 13. For information on attending the event, please visit www.uscyberpatriot.org or contact the CyberPatriot Program Office at info@uscyberpatriot.org.
