

May 15, 2016 1-4pm

\$10 registration per family

St Paul Family Life Center

- Does your day ever end looking this way?
- Would you like your children to listen the first time?
- Are you searching for a better way to approach discipline and enforcing limits?
- Would you like life long strategies to improve the way your children follow your rules?
- Would you like to show more grace in your parenting?

Discover and develop good parenting techniques

Speaker and Family Therapist, Paul Gasser, combines his 30 years of experience with the strategies of the **Love & Logic Institute**

Love and Logic techniques assist in solutions to many daily challenges ranging from:

Toddler tantrums, mealtime routines, potty training, bedtime ... to putting down the electronics when requested, clean up and household chores, sibling fighting, listening the first time...and much more!

The "Love" means that we are willing to set boundaries and enforce limits, with compassion and empathy.

The "Logic" happens when we allow our children to make decisions, make affordable mistakes and experience the natural or logical consequences.

Presentation focused toward families with children going into Pre-K (or younger) thru 5th grade.

Complete registration below and return to church or school office with payment.

Pre-register your child(ren) by May 11 to secure childcare during presentation.

Name/s: _____
