SUPPLEMENTARY INFORMATION:

The Biomass Research and
Development Act of 2000 (Biomass Act)
[Pub. L. 106-224] requires cooperation
and coordination in biomass research
and development (R&D) between the
U.S. Department of Agriculture (USDA)
and U.S. Department of Energy (DOE).
The Biomass Act was repealed in June
2008 by section 9008 of the Food,
Conservation and Energy Act of 2008
(FCEA) [Pub. L. 110-246, 122 Stat. 1651,
enacted June 18, 2008, H.R. 6124]. The
Biomass Act was re-authorized in the
Agricultural Act of 2014.

FCEA section 9008(d) established the
Biomass Research and Development
Technical Advisory Committee and lays
forth its meetings, coordination, duties,
terms, and membership types.
Committee members are paid travel and
per diem for each meeting. The
Committee must meet quarterly and
should not duplicate the efforts of other
Federal advisory committees. Meetings
are typically two days in duration.
Three meetings are held in the
Washington DC area and the fourth is
held at a site to be determined each
year. The Committee advises DOE and
USDA points of contact with respect to
the Biomass R&D Initiative (Initiative)
and priority technical biomass R&D
needs and makes written
recommendations to the Biomass R&D
Board (Board). Those recommendations
regard whether: (A) Initiative funds are
distributed and used consistent with
Initiative objectives; (B) solicitations are
open and competitive with awards
made annually; (C) objectives and
evaluation criteria of the solicitations
are clear; and (D) the points of contact
are funding proposals selected on the
basis of merit, and determined by an
independent panel of qualified peers.

The committee members may serve
two, three-year terms and committee
membership must include: (A) An
individual affiliated with the biofuels
industry; (B) an individual affiliated
with the biobased industrial and
commercial products industry; (C) an
individual affiliated with an institution
of higher education that has expertise in
biofuels and biobased products; (D) two
prominent engineers or scientists from
government (non-federal) or academia
that have expertise in biofuels and
biobased products; (E) an individual
affiliated with a commodity trade
association; (F) two individuals
affiliated with environmental or
conservation organizations; (G) an
individual associated with state
government who has expertise in
biofuels and biobased products; (H) an
individual with expertise in energy and
environmental analysis; (I) an
individual with expertise in the
economics of biofuels and biobased
products; (J) an individual with
expertise in agricultural economics; (K)
an individual with expertise in plant
biology and biomass feedstock
development; (L) an individual with
expertise in agronomy, crop science, or
soil science; and (M) at the option of the
points of contact, other members (REF:
FCEA 2008 section 9008(d)(2)(A)). All
nominees will be carefully reviewed for
their expertise, leadership, and
relevance to an expertise. Appointments

will be made for three-year terms, as dictated by the legislation.

Nominations this year are needed for the following categories in order to address the Committee's needs: (E) An individual affiliated with a commodity trade association; and (J) an individual with expertise in agricultural economics. Nominations for other categories will also be accepted. Nomination categories C, D, H, I, J, K, L, and M are considered special Government employees and require submittal of an annual financial disclosure form. In addition to the required categories, other areas of expertise of interest to the Committee are individuals with expertise in process engineering related to biorefineries, or biobased coproducts that enable fuel production.

Nominations are solicited from organizations, associations, societies, councils, federations, groups, universities, and companies that represent a wide variety of biomass research and development interests throughout the country. In your nomination letter, please indicate the specific membership category of interest. Each nominee must submit their resume and biography along with any letters of support by the deadline above. If you were nominated in previous years, but were not appointed to the committee and would still like to be considered, please submit your nomination package again in response to this Notice with all required materials. All nominees will be vetted before selection.

Nominations are open to all individuals without regard to race, color, religion, sex, national origin, age, mental or physical handicap, marital status, or sexual orientation. To ensure that recommendations of the Technical Advisory Committee take into account the needs of the diverse groups served by DOE, membership shall include (to the extent practicable), minorities, women, and persons with disabilities. Please note that registered lobbyists serving in an "individual capacity," individuals already serving another Federal Advisory Committee and Federal employees are ineligible for nomination.

Appointments to the Biomass Research and Development Technical Advisory Committee will be made by the Secretary of Energy and the Secretary of Agriculture.

Issued in Washington, DC, on May 19, 2016.

LaTanya R. Butler,

Deputy Committee Management Officer.

Abstract: In response to the FY2008 Consolidated Appropriations Act (H.R. 2764; Pub. L. 110-161) and under authority of the Clean Air Act, the EPA finalized the Mandatory Reporting of Greenhouse Gases Rule (GHG Reporting Rule) (74 FR 56260; October 30, 2009). The GHG Reporting Rule, which became effective on December 29, 2009, establishes reporting requirements for certain large facilities and suppliers. It does not require control of greenhouse gases. Instead, it requires that sources emitting above certain threshold levels of carbon dioxide equivalent (CO₂e) monitor and report emissions.

Subsequent rules have promulgated requirements for additional facilities, suppliers, and mobile sources; provided clarification and corrections to existing requirements; finalized confidentiality business information (CBI) determinations, amended recordkeeping requirements, and implemented an alternative verification approach. Collectively, the GHG Reporting Rule and its associated rulemakings are referred to as the Greenhouse Gas Reporting Program (GHGRP).

The purpose for this ICR is to renew and revise the GHG Reporting Rule ICR to update the burden and cost imposed by the current ICR under the GHGRP.

Form Numbers: None.

Respondents/affected entities: The respondents in this information collection include owners and operators of facilities that must report their GHG emissions and other data to EPA to comply with the rulemaking. To facilitate the analysis, EPA has divided
