ABOUT THE PARTNERSHIP RESOURCE DIRECTORY: Organizing Resources in Our Rural County

The Tioga County Partnership for Community Health is working to build a searchable database that organizes information about resources available in Tioga County, PA. We invite you to share your resource for inclusion in the new online Partnership Resource Directory (Partnership RD). As you may well know, in a rural county such as ours, we must work together to better quality of life for our residents through formal services and informal supports and programs. We recognize that while formally organized services, such as Dept. of Human Services, are vital to the health of our residents, many times informal supports fill gaps that cannot be addressed by other means. We must work together to fill gaps. Therefore, we welcome listings from resources that may be provided more informally through churches, civic groups, volunteer groups, etc. as long as there is reliable and consistent contact information associated with the resource being provided.

SHARE YOUR VOLUNTEERING OPPORTUNITY SOURCES:

A secondary function of the Partnership Resource will be to help share volunteering opportunity sources. If not for volunteers, many things would be left undone in our rural county. If you indicate there are volunteering opportunities available at your organization, we would like to feature a link to your website on the "Volunteering Opportunities" page of our new website: www.tiogapartnership.org. Sharing resource information and volunteering opportunities will help our rural county become a healthier place, to live, work and play. Thank you for your application!

****By providing information in this application you give permission for all or part of the information you provide to be included in the online directory housed on www.tiogapartnership.org website and other printed materials associated with the Partnership Resource Directory that will serve to link people with programs and services in Tioga County, PA.****
