

## FAQ's for Inclusion

### Partnership Resource Directory

#### How is this different than other directories?

- This directory will enhance quality of life by bringing awareness to lesser known beneficial volunteer groups, social services, and supports in one central Tioga County-specific repository.
- This directory will advertise local need for volunteers as well as provide contact and general information about formal services in Tioga County, PA. Those organizations who indicate they **do** have volunteering opportunities available will also receive a volunteer page listing on our website with their logo displayed if provided. See the Volunteer page here: <http://tiogapartnership.org/volunteer/>

#### Who will be included?

Formal services, Informal supports, and Public domain entries will be included. Please note:

- Informal supports must provide reliable and consistent contact information associated with the resource being provided.
- Public domain entries are those who have not submitted an application, but will be entered by Partnership staff as they come to our attention. They will be categorized to the best of staff's knowledge. Your organization's information may be in the public domain, but this does not guarantee it will be automatically entered into the Resource Directory. To ensure your entry is included, submit an electronic application here: <http://tiogapartnership.org/add-new-resource/>

#### My organization has been included as a public domain entry but I disagree with the information posted. Can I edit it?

Yes. >Go to your entry by using the Search field here: <http://tiogapartnership.org/resources/>.  
> Type in your organization's name> See the electronic contact form on the right side of your screen.> Fill in the fields and hit the "Send" button at the bottom. Your correction and/or revision will be reviewed by Partnership staff and you will be contacted to approve the new entry.

#### How can I include my informal support/service/program?

Go to: <http://tiogapartnership.org/add-new-resource/>  
Fill in the information. A Partnership staff member will review and post the entry to the Resource Directory within a week. *Informal* supports/ services/ programs will need to provide reliable and consistent contact information that can be verified.
