To apply, General Application and Scholarship Application

Princeton Summer Journalism Program

All-expenses-paid program for high school student journalists from low-income backgrounds that will take place for 10 days next summer on the campus of Princeton University. The program's goal is to diversify college and professional newsrooms by encouraging outstanding students from low-income backgrounds to pursue careers in journalism. Classes at the program are taught by reporters and editors from The New York Times, The Washington Post, The New Yorker, The Daily Beast, Time, National Journal, New York Magazine, The New Republic, ESPN the Magazine, CNN and NPR, among other media outlets. Students meet with numerous Princeton professors, as well as Princeton's president and admissions officers. They report an investigative story, cover a professional sports event, produce a TV segment, and publish their own newspaper. And they receive guidance on the college admissions process not only during the 10 days of the program, but also during the fall of their senior year of high school.

To be eligible for the program, students must meet the following qualifications:

- They must currently be juniors in high school.□
- They must live in the United States.

- □ They must have at least an unweighted 3.5 grade point average (out of 4.0). □
- They must have an interest in journalism. □
- The combined income of their custodial parent(s)/guardian(s) plus child support payments, if any, must not exceed \$45,000. □

Note: This program is for students from low-income backgrounds. If the combined income of the custodial parent(s)/guardian(s) plus child support payments, if any, exceeds \$45,000 and a student still wishes to apply, he or she may attach a letter explaining why his or her family qualifies as financially under-resourced. Additional information about the program is available at www.princeton.edu/sjp.

Application Deadline: February 26

The **Sonia and Celina Sotomayor Judicial Internship Program** is now accepting applications for its summer 2016 internship program. High school students from underserved communities will be exposed to careers in the law through an internship with a Judge in state or federal courts throughout New York City, as well as weekly seminars, including sessions on college preparation, essay writing, professional skills, legal research and writing, and exploring different legal career options.

The program will be held from July 5, 2016 through July 29, 2016. To apply, please visit http://scsjip.org/hs_program.html (*Students need to click the high school tab for the application*). **The deadline to apply is March 18, 2016.** If you have any questions, please contact Debra Lesser, Justice Resource Center, at dlesser@schools.nyc.gov

Study abroad with Rochester's Pre-College Programs

The University of Rochester's **Pre-College off-campus and abroad programs** to Malawi and Samoa are for high school sophomores, juniors, and seniors who seek academically focused cultural immersion. Students will study abroad while completing college-level research in anthropology, economics, public health, ecology, environmental studies, and international development. They'll gain experiential training, combine academics and adventure, and learn that sometimes the best classrooms are found in unexpected places. **The application deadline is February 15, 2016.** For more information, visit enrollment.rochester.edu/precollege.

Fine Arts Summer Workshop at NYIT

Take their digital portfolios to the next level and earn up to two college credits at New York Institute of Technology's pre-college summer workshop in graphic design and 3-D animation/game production.

Students in the summer workshop have the opportunity to explore our majors in computer graphics/animation and graphic design while developing a portfolio. Not only will your students gain hands-on experience, but they will earn one academic credit per week upon entry into NYIT's Fine Arts Department!

The summer program consists of two one-week workshops:

- **CREATE MOTION!** Students will collaborate in production teams to explore the complex workflow and dynamic interactivity of 3-dimensional games. In this workshop, students capture live motion through the use of our 3-D Motion

Capture studio, animate and edit those movements using Autodesk Maya, and incorporate animated elements into a game environment using Unity3D.

- **BRAND YOURSELF!** In this workshop, students conceptualize and use visual language to communicate messages and ideas clearly and effectively. Then, they'll merge traditional and digital tools to create powerful design solutions using photography, illustration, and typography. At the end of the week, students will have designed a logo and overall identity for a potential client or themselves.

Cornell University Summer Program College

3 and 6 week programs for High School students

- experience the excitement of college life at a great Ivy League university
- earn 3-6 credits in courses with Cornell faculty
- attend admissions workshops

Application Deadline: March 11, 2016

For more information visit www.summercollege.cornell.edu

The Geosciences Bridge Program is funded by the National Science Foundation (NSF) and NOAA's Living Marine Resources Cooperative Science Center (LMRCSC) at the University of Maryland Eastern Shore. **The program is for high school seniors** to introduce them to ocean sciences, atmospheric sciences, and geographic information systems (GIS)/Remote Sensing techniques; strengthen their knowledge of mathematics; teach them life skills that will prepare them for college life; and enhance their academic performances through advisement, social support, and tutorial services.

The program offers a **6-week paid internship (\$500/week stipend + housing + meals) for students planning to pursue careers in the geosciences.** The program includes lectures, field trips, hands-on activities, 2 courses for college credit (math and freshman seminar), housing, meals, travel to and from the University of Maryland Eastern Shore and a stipend.

Application Deadline: March 31, 2016 / Program dates: June 27-August 5, 2016

For more information please visit <https://www.umes.edu/cscgeosciences/> or contact Onjale Scott obscott@umes.edu.

Are you interested in working with children ages 2-6 years – **PLAY Greenpoint** is looking highly-motivated and energetic classroom assistants! Responsibilities include:

- Participate in class sessions
- Assist in special events such as birthdays and help with the day's curriculum ranging from reading, singing and acting with the students to helping with arts and crafts activities
- Help with setup for birthday parties, decorate, prepare party favors, and help entertain kids.

This is a great opportunity to build experience in the education/childcare/hospitality fields. For more information, please contact Michelle at 718.387.2071 or info@playgreenpoint.com

MindMatters Tutorial is a private learning center located in Astoria, Queens. We are seeking high school interns to not only participate, but to learn from our cause by serving as Educational Assistants. EA interns are expected to assist instructors by mentoring younger students and performing general office duties. In return, Educational Assistants are credited with community service hours, receive **FREE SAT classes and college readiness workshops** (*personal statements, resumes, etc.*), and are trained to become our next generation of instructors upon graduation.

Students can apply online: <http://www.mindmatterstutorial.com/application.html>
