

# Continuing Education 1 AIA-CEU LU HSW

Free Lunch & Learn Vendor Program at the AIA Chapter Office.  
Tuesday, May 17<sup>th</sup>, 2016, 12 noon.

## Real-Time Revit Collaboration in the Cloud.

### Course Description:

This presentation will go over the processes used to Enable Real-Time Revit Collaboration in the Cloud. (1 AIA-CEU LU HSW).

### Learning Objectives:

1. Understand difference between Public Cloud as compared to Private Cloud and BIM Project Cloud.
2. Learn how Revit Worksharing collaboration is enabled and what tools support the collaborative environment. \*(built-in Revit sync vs 3rd party sync)
3. Learn how multiple firms collaborate centrally on the same Project in real-time in a secure shared area.
4. Develop a clear understanding of what Revit Server is and how it functions, along with newer Autodesk A360 Collaboration for Revit, to give context to Private Cloud and BIM Project Cloud.

### Presented by:

**Paul Perrello, Business Development Executive**

# Continuing Education 1 AIA-CEU LU HSW

Free Lunch & Learn Vendor Program at the AIA Chapter Office.  
Tuesday, May 24<sup>th</sup>, 2016, 12 noon.

## Total Window Control: Creating a Better Home Environment

### Course Description:

This presentation will review window construction materials and glazing options to optimize comfort levels including thermal performance, safety, and aesthetics.  
(1 AIA-CEU LU HSW).

### Learning Objectives:

1. Explain how the choices made during the window selection process allow the architect to dial in and choose the perfect window for their project.
2. Recognize that one of the most important parts of a window is glazing and understand the specification elements that can be controlled to maximize comfort, energy efficiency, sound, and safety.
3. Provide guidance in the selection of the appropriate window for a given project based upon the design requirements and desired aesthetics while considering value-engineered alternative options.

### Presented by:

**Danny A. Gum**

Architectural Consultant  
Sierra Pacific Windows

### Location:

***AIA Cleveland Center for Architecture & Design***

Playhouse Square  
2059 East 14th Street  
Cleveland, Ohio 44115

## **Continuing Education 1 AIA-CEU LU**

Free Happy Hour & Learn Vendor Program at AIA Chapter Office.  
Wednesday, May 25<sup>th</sup>, 2016, 5:30p – 7:30p.

### **Trace it Back: A Course in Transparency**

#### **Course Description:**

An overview of materials transparency and how it relates to green building, and socially and environmentally responsible manufacturing. The program contains an explanation of products' life cycle and associated health and environmental impacts from creation, use, and disposal. (1 AIA-CEU LU).

#### **Learning Objectives:**

1. Provide an understanding of a life cycle analysis.
2. Explain representative impacts of choices along a life cycle path.
3. Educate on the use of Environmental Product Declarations or EPDs and other transparency documents.
4. Shed some light on the benefits of transparency in the marketplace

#### **Presented by:**

**Amy Rizzo, NCIDQ, Industry IIDA**

Sales Representative Northern Ohio

## Continuing Education 1.5 AIA-CEU LU HSW

Free Lunch & Learn Vendor Program at the AIA Chapter Office.  
Tuesday, June 14<sup>th</sup>, 2016, 12 noon.

### The Fundamentals of Clay Roof Tile

#### Course Description:

This presentation will provide an understanding of the economic and environmental advantages gained by using terra cotta roof tiles. (1.5 AIA-CEU LU HSW).

#### Learning Objectives:

At the end of this program participants will be able to:

1. List the benefits of terra cotta roof tiles.
2. Explain why terra cotta roof tile has more GREEN qualities than any other roofing material.
3. Identify the benefits of terra cotta roof tile vs other roofing options.
4. Discuss common technical installation procedures.

#### Presented by:

**Brian Martucci**

Ludowici Roof Tiles
