

## THE 7<sup>TH</sup> ANNUAL SOUTHEAST FLORIDA REGIONAL CLIMATE LEADERSHIP SUMMIT

Greetings,

On behalf of Monroe County and the Southeast Florida Climate Change Compact, I wanted to cordially invite you to participate in the upcoming 7<sup>th</sup> ANNUAL SE FL REGIONAL CLIMATE LEADERSHIP SUMMIT on December 1-3, 2015, hosted this year by Monroe County, Islamorada, Village of Islands and the City of Key West.

Sponsorship opportunities are available to entities that are interested in sustainability and climate change issues and who can benefit from the exposure that will be generated by an anticipated 400 attendees to this year's three day Summit. As in the past, this year's event will provide opportunities to network with key local, regional, national and international stakeholders from the private and public sectors, who will share their knowledge and perspectives on climate change issues and who may be seeking solutions to climate change issues in their area.

We welcome the opportunity to work with your team to determine the sponsorship level that best fits your needs. Attached please find a description of the available sponsorship levels and opportunities.

You may wish to lock in your sponsorship early to gain maximum exposure through the multiple mailings we will be sending to potential registrants and to guarantee the sponsorship of a particular event at the Summit.

When you have reviewed the sponsorship opportunities attached, please contact our Sustainability Director Rhonda Haag for further discussion. Ms. Haag can be reached at (305) 453-8774 or [Haag-Rhonda@MonroeCounty-Fl.gov](mailto:Haag-Rhonda@MonroeCounty-Fl.gov).

I look forward to seeing you at the Summit in Key West.

Cordially,

Roman Gastesi  
County Administrator  
Monroe County
