

## **Community Facility Utilization Committee**

In the months since the Community Facility Utilization Committee has been struck, this relatively new committee has been busy. Through organizing and facilitating a series of parlour sessions to obtain feedback and input on the future of our Community's facility needs and wants, the committee has been able to hear from over 130 community members from different demographics. The majority of these sessions have been held in homes, making this not only a very comfortable experience, but one that also allows the committee to tap into existing community networks. Going ahead, other sessions designed to tap into diverse groups will be arranged. One such example of these is a parlour session organized for Hillel students to be held in late February. Thus far, the Federation Board and the Facility Committee have been very pleased with the pace and diversity of input that has been received. Please help guide our community as we plan our future Jewish facility needs sustainably and accountably by participating in a meeting.

If you are interested in attending one of these sessions or would be interested in hosting one, please contact [info@edjfed.org](mailto:info@edjfed.org)
