**Join us in Celebrating a Very Special 25 Year Anniversary of  
the American Apitherapy Society!**

The American Apitherapy Society proudly announces its 18th annual Charles Mraz Apitherapy Course & Conference to be held in Lombard, Illinois. Lombard, IL is located 20 miles from Chicago O'Hare International Airport and 30 miles from Chicago Midway International Airport.

Medical doctors, a spectrum of holistic health practitioners, veterinarians, researchers, backyard beekeepers, and members of the general public interested in self-reliant health care will convene from all over the United States and the world to learn about Apitherapy. Apitherapy, an ancient healing modality, refers to the therapeutic use of products from the beehive including honey, pollen, royal jelly, propolis, and bee venom therapy.

Attendees will be educated in the therapeutic properties of each of the hive products including a hands on bee venom therapy session where participants will obtain practical experience and learn to be self-reliant with this amazing healing practice. Presentations are given by the CMACC faculty and guest speakers who are some of the most prominent and experienced apitherapists in the world. Examples of material covered in these presentations are allergic reactions, techniques of BVT, informed consent and legal issues, propolis and its many uses, veterinary apitherapy, wound healing, and much more. The preliminary program detailing material to be presented will be posted on the website shortly. Back by popular demand, we will be offering two levels of the course offering basic information to those new to Apitherapy and more advanced information to those already experienced with Apitherapy. Certificates of completion and CE credits will be available to participating professionals.

The AAS is a nonprofit membership organization established for the purpose of education in the advancement of Apitherapy. CMACC has been named in memory of Charles Mraz, an American pioneer in the use of bee venom to treat diseases.

Visit [www.apitherapy.org](http://www.apitherapy.org) where with a single click you can access all CMACC information, register and pay online. **Don't miss out on the EARLY BEE DISCOUNT by making sure you register by Sunday, March 2, 2014.** Join us for the Friday night dinner celebration of our 25 year anniversary to socialize and relax with others while enjoying family style Greek cuisine. Hotels can be booked separately using the hotel link on the website; all of them include breakfast and transportation to and from the conference. A one year membership or renewal with AAS valued at \$45.00 is included with the course fee. Looking forward to seeing you there!
