

## Medical Director/Chief Medical Officer Needed

Are you looking for a better work/life balance? Then community health is the place for you! Come join a team setting without the distractions and detractions of administration, billing and excessive patient loads. Our practices include the prospect of a balanced life, no buy-in and guaranteed salary coupled with a robust benefits package.

We are seeking a Board Certified Family Practice Physician/DO for a Community Health Center in Virginia. Experienced candidate preferred. Virginia licensure required. No J1s/H1Bs, please.

Current opportunities include: Richmond, Virginia

This health center is looking for an accomplished, experienced candidate. Candidate must have strong administration skills, accomplished management and people management skills and the ability to succeed in a fast paced environment. Patient care load/admin duties/requirements are an 80/20 split and is exclusively outpatient. Physician candidate should expect to supervise advance care practitioners, nurses and additional medical staff. Please inquire for additional information.

Join a growing, stable organization with over 100 service sites of community based practices where you are needed and appreciated. Competitive, guaranteed salary and great benefits offered in these well established practices. Daily patient load is very reasonable while allowing you to spend time with each patient; settings are outpatient based and call scenarios are minimal or nonexistent.

Loan Repayment opportunities may be available through the National Health Services Corps.

Malpractice insurance is paid by the Health Center at no cost to you as part of the Federal Tort Claims Act (FTCA). If you are looking for something more unique than the standard private practice, traditional hospital setting or hospital based clinic, we have a great opportunity for you!
