

NAV-ED Services Group

NAV-ED Services Group has been approved by the USCG to provide classes which satisfy the educational and examination requirements for **Captain** (Operator of Uninspected Passenger Vessel); **Master** (NTM 100 Tons) and endorsements for **Auxiliary Sail** and **Assistance Towing**. NAV-ED also is approved to offer the **Captain and Master (NTM 100 Tons) Renewal** course.

NAV-ED Services Group is owned locally and provides classes in the Capital District, Adirondacks and lake regions of Upstate New York.

We hope we can help you!

Captain Peter M. Byron
Captain Kevin T. Byron
USCG Licensed Masters

CAPTAIN AND MASTER (NTM 100 TONS) RENEWAL

“(a)(i) Where one of two vessels is to keep out of the way the other shall keep her course and speed.”

NAVIGATION RULES (INTERNATIONAL)
RULE 17
ACTION BY STAND-ON VESSEL

What is the OUPV/MASTER Renewal Course?

The 8 hour course provides instruction to satisfy the requirements for the renewal of licensure as an OPERATOR OF AN UNINSPECTED PASSENGER VESSEL (OUPV) or a MASTER (NTM 100 TONS).

Graduates of the NAV-ED program are awarded a Certificate of Training which when submitted within one year of completion of the training will satisfy the examination requirements of 46 CFR 10.227(d)(8)(i)(B) for renewal of any deck license endorsed for service upon vessels of not more than 100 Gross Tons.

Who Needs to Renew?

This course is designed for license holders who do not anticipate completing 360 days on the water during the 5 year licensing period.

When Do I Need to Renew?

The holder of a Captain or Master license must renew their license prior to its expiration date if s/he expects to operate under that license. It is recommended by the National Maritime Center that the license be renewed as least two months before expiration but six months before expiration if the licensee has medical issues.

What Does the Course Cover and How Do I Apply?

The course is designed to provide refresher material in topics taught during the Captain and the Master courses.

Instruction is provided in:

- Maritime Law
- Watchkeeping
- Vessel Maneuvering and Handling
- Fire Prevention and Firefighting Appliances
- Emergency Procedures Shipboard Management and Training
- Lifesaving
- Trim and Stability

The course provides a combination of lecture with practical applications and mastery activities to reinforce skills learned in earlier vessel operator classes. See www.nav-ed.com for additional details and fees.

The course is offered upon request. Applicants should contact NAV-ED to schedule a session. Please call 518.312.9041 or email contact@nav-ed.com
