

In the recent past there have been several work place homicides as a result of a domestic violence situation. Did you know that one in four women are victims of domestic violence? If you are a business in Kenosha County, WCH is available to visit you onsite to discuss issues surrounding domestic violence and the effects on the workplace. Our staff is prepared to present strategies and safety planning as well as information and referral resources. We can also provide various training on domestic violence at your request. Please call or email Lori (Bastian) Hanson at (262) 656-3500 or email lbastian@wchkenosha.org.
