

*I hired Connie Jurey in 2009 to list two of my rental properties in Bloomington, Indiana. At that time she was with another real estate firm. When she started her own company, House Smart Realty, LLC in 2010 I relisted the homes as well as another home I owned there with her. To say she went above and beyond the call of duty is an understatement. Everything she did was with keeping my best interest in mind. I own property all over the United States, but these homes were by far my most difficult to manage. She made sure I was informed and kept in the loop the entire time. I can tell you without a doubt, that if I ever do another real estate transaction in the Indianapolis/Bloomington area, I will, without question contact Connie Jurey. I highly recommend her with your real estate needs also.*
