

CREDIT ISSUES STOPPING YOU FROM OBTAINING YOUR DREAM OF HOME OWNERSHIP?

Let us help! Sometimes it's not as bad as it seems and then again sometimes it's worse than we thought. In cases where there are old collections, no new credit, or just mistakes on the report we can usually help. If it's beyond our expertise we can introduce you to a couple of agencies that can help you for a nominal fee. These companies have to charge a fee or they would go out of business. We do not receive any compensation from these companies. We offer our services for free because we know that once your credit scores increase to a point where you can get financing you will buy a house with us and we are paid by the seller.

So don't let credit issues stop you from trying to get a house, there is hope. It might take a little time, some homework on your part and you might have to pay off those debts that are keeping you from getting financing, but in the long run it will be worth it!
