

Reef Refreshments

Hi, my name is Max Olson and for my Capstone project I am focusing on helping to save the Coral Reefs of the world. Coral reefs are important to us all because oceans support life on earth. Coral reefs are the building blocks of life in the oceans. Without them all life on the planet would be in danger.

On Wednesday May 27th and Thursday May 28th

I will be having a “Reef Refreshment” table from 7:25am to 8:15am in the courtyard. I will be serving Coral Lemonade and “Reef Treats”.

Drinks .50

Treats \$1.00

Please help me raise money for Teens4Oceans.

TEENS4OCEANS

“Teens4Oceans’ mission is to empower our next generation to become impassioned stewards for their oceans through education, science research, and experiential learning.”

Look for more information on how to help protect Coral Reefs and our Oceans coming soon ~ Thank you for your support!
