

WISCONSIN/NICARAGUA
Partners of the Americas, Inc.

Monthly Meeting
June 2016

We began with prayer of thanks , followed by testimony of leader Zoyla and Bonsuá Creations .

Mrs. Leonor, encouraged participants to create their own business as the case of Bonsuá Creations who already sent their creations to Wisconsin. They presented bags that are made in Thursday classes from the Office. Sister Magdalena showed her bags and said he will share the teaching with some girls.

The participants were presented one by one saying their name, the Learning Center they represent and why they like to come to the monthly meetings and belong to this organization .

Today's activity was presided by Mrs. Ulda, consisted on a craft with marble, brushes , wood, paint and a lot of creativity.

“I started on my bed in a little place, then on a wooden seat, Later on I got a bigger table; Today, we have a shop. We began removing stones jewelry and returning them to assemble, today we are a group of 30 women visiting neighborhoods in rural areas . How did we do it ? Not paying attention to negative people , in this life I have learned that nothing hurts me, everywhere we find negative people along the way but if we give them attention , we won't get our way: Success ”

-Hilvia, Carolina LC.

Entrepreneurship

Well, I want to thank Mrs. Ulda ,
and I want to tell her personally
that I admire her. She has given
me encouragement to teach and
work because she inspires us a
lot. I met her recently but I know
she is a great friend.

-Irayda

I admire her because despite
of her illness, does encourage
us to come and teach us.
Sometimes we are well but we
refuse to teach others. I
congratulate you for that
encouragement.

I also congratulate you, because you are a
reason to keep going because maybe those
who have the facility to move were at home
but I admire her because it is difficult to
come here in her conditions. We love you
and God bless you .

-Chepita

Ulda thank you for your patience , love , will,
with all the pain You've had I've been
watching you. Thank you for your knowledge
that he has given us. I've Never painted
before, thanks for teaching us.

-Silvia

Be Your Own

Easy, simple and nice , we can get to fly our
imagination with this technique.

-María.

Thank you very much for
taught us this craft, I had
never worked in wood. Now I
have a new knowledge to
share in my region with many
children.
