Instructor: Marcia

Report

Shoe holder Workshop:

The workshop starts with 5 participants, with the objective of fortifying the Learning centers leaders knowledge, so they can reproduce it in different places. The first thing the instructor taught was how to cut the patterns, and then cut the pieces already drawn in the fabric. The next thing that the instructor does is sew the border in each piece at the front and then till finish the indicating sewing.

Drawing the patterns

Fabric ready to be cut.

The participants had the following comments:

Noemí: I like this workshop; it is very interesting and useful for women. I will promote the sale of these shoe holders. I congratulate the organization for helping the women.

Instructions to stick the border into the pieces that are part of the shoe holder.

Josefina

Victoria and Isabel

Victoria: I come from Barrio Juan Emilio Menocal, where I am better known as Viky. The class was amazing, big opportunity. I have always thought we are weak, but this way we get to have financial benefits in order to buy house supplies. I am very excited and I want to keep learning.

Isabel: Excited about making its own shoe holder, because it is an instrument to organize everybody's shoes at home.

Miriam

Finished Products

Victoria

Marcia: it is the first time in my life that I perform as an instructor; I always support the projects and my partners. I felt very motivated by my 5 students and felt like family to me. I am happy and proud about my students, who learned very well the class. I am ready to keep teaching in other opportunity.

It's worth to mention that the materials used in this workshop such as: upholstery fabric, random fabric, thread, paper and patterns were sent by Wisconsin volunteers, with the humanitarian program that is received at the WNP office to support most of the projects.
