This SAT prep class is designed to prepare students for **the new SAT** that will be introduced on March 5, 2016. Students will learn what types of questions to expect on this redesigned test and how to make intelligent choices when answering test questions. When students are prepared with test-taking strategies and practice, they often find both their confidence and their test scores boosted.

According to the College Board, "The SAT is the nation's most widely used college admission test. Used in combination with high school GPA, SAT scores are the best predictors of a student's potential to succeed in college."

We recommend this course especially for **Juniors** as they generally take the SAT in the spring.

Test Dates for SAT: Jan. 23, March 5 (new SAT), May 7, & June 4.
