

STOCKADE BIKE DEMO

SCHENECTADY BIKE INFRASTRUCTURE MASTER PLAN

JOIN THE FUN - RIDE WITH US!

In celebration of the upcoming **CYCLE THE ERIE** event, riders and residents are invited to Schenectady's first community demonstration project showcasing street-level bicycle improvements designed to increase safety and connectivity. The temporary installation, through funding support from the CDTC, is part of a larger effort to update the City's Bicycle Infrastructure Plan. The Stockade is a key connection between other local destinations and the Mohawk-Hudson Hike-Bike Trail and so, Washington Avenue was identified as a prime location to attract users during this weekend's events and explore options for safer trail connections.

WHAT: Community Bike Project

WHEN: July 15th to July 19th

WHERE: Washington Avenue

FEATURES: Contra-flow bike lane, shared lane, mini-traffic circle, and wayfinding.

TELL US WHAT YOU THINK

Do you ride a bike in Schenectady?

What improvements do you think are needed to get more people to ride?
