OCCUPATIONAL THERAPY HANDWRITING GROUP

Two handwriting groups are being offered at our West Chester location to those children who will be entering kindergarten or first grade in the fall. The group will be focusing on learning to form letters with correct size, spacing, line placement, and motor planning while using a correct pencil grasp. A variety of fun games and sensory experiences will be used to help regulate attention and increase body awareness to facilitate development in fine motor tasks. Activities to be completed at home will be recommended along with a Handwriting Without Tears® handbook.

Please speak to an occupational therapist if you have questions about eligibility.
