

# OACAA Briefing

September 2012

## OACAA News

### Check Out OACAA's New Logo!

The Ohio Association of Community Action Agencies (OACAA) is in the process of updating our look! We have created a new logo that exemplifies how Ohio's Community Action Agencies strengthen Ohio's communities. You will begin to see this new logo utilized on information from OACAA. Please feel free to incorporate it in your messaging and on your website to demonstrate that you are a member of OACAA and play an important role in strengthening Ohio's communities. If you would like to receive a jpeg file of the new logo, contact Colleen Stoker at (614) 224-8500 or [colleen@oacaa.org](mailto:colleen@oacaa.org).

We will also be incorporating our logo into a new website that is in the process of being created. It will include a separate "Members" area to help OACAA members find the information most important to them - including detailed information about the programs and services OCATO offers to members, an interactive map to assist low-income residents in finding agencies and services in their area, a section with poverty facts and additional information of interest to the media, legislators, community leaders and the general public.

Look for the enhanced website in the coming months!
