

Free Sensory Friendly Concert!

featuring

Pam Arnstein, Violinist

April 16th, 2016 | 11 AM

Orchestra Hall-Target Atrium

Sensory Friendly Concerts are an opportunity for individuals with disabilities to attend a musical experience in an accommodating environment. The concerts are designed to provide equal access to quality music free of the stigma and rules that are required in typical concert settings. In addition to watching ensembles of Minnesota Orchestra musicians, individuals with disabilities are given the opportunity to share their musical talents in front of an appreciative audience.

Pam will be playing a collection of original pieces she wrote! She has been playing the violin since age 8, and has been playing in the MN Orchestra for 33 years. Her favorite place is on her deck enjoying a cup of tea and sunshine. We are excited to welcome her back for her third concert!

Parking on street & parking ramp attached to venue available on 11th St, east of Orchestra Hall.
