

SOUTH CAROLINA-ISRAEL COLLABORATION

Collaboration Partners

Government of Israel
Economic Mission to North America
New York Office

American Israel
Educational
Institute

Sponsor

**You are invited to a series of events in the Upstate, Midlands and Lowcountry
July 27 - 28, 2011**

We are proud to bring to South Carolina a series of education events that will enable you to:

Hear how Israel has become the "Start-Up Nation" with the world's top entrepreneurial innovation economy.

Learn of plans to strengthen South Carolina's economy through business and research partnerships with Israel.

Discuss identified clusters of strength in South Carolina and Israel (Biomedical, Advanced Materials, Sustainable Systems, Transportation, Insurance / Health IT, and Defense / Security) and how this collaboration may be advantageous for you.

Consider joining a delegation of South Carolina's industry and scientific leaders who will travel to Israel in November for a week-long economic and trade mission.

Don't miss this opportunity to get involved!
