

Love Learning

Give back with Mathletics this year!

Live Mathletics

Connect the world
with learning.

The more Connector Points you
earn, the more schools we can build.

Mathletics is passionate about education for all.

We work closely with our friends at UNICEF to fund the building of schools in locations where they are badly needed. Now our global community of students can get involved.

For every **2 million Connector Points** earned by students around the world, we will add a piece to our school above. When all 12 are in place, Mathletics will fund the building of another brand new school in a UNICEF supported part of the world.

Earn 2 Connector Points for starting a game and 1 Connector Point for joining one.
