

Rosen's Inc.

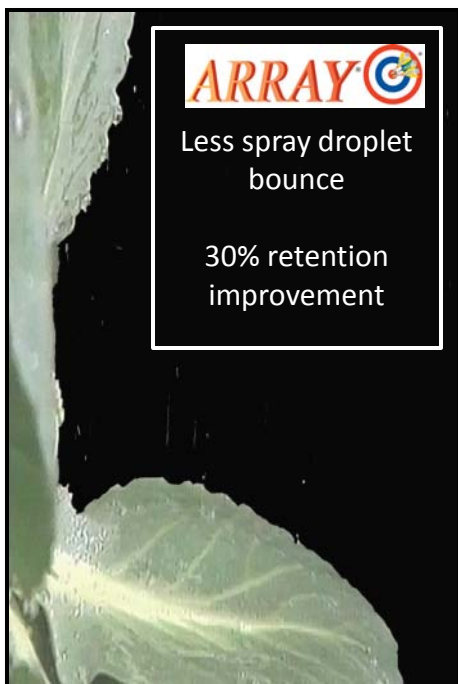

"STILL THE STANDARD"

Array has proven it's quality and performance benefits for more than a decade, as a Target Performance Adjuvant that increases the deposition, retention, canopy penetration and performance of post applied pesticides.

BENEFITS

improved retention of spray
improved spray pattern quality
improved canopy penetration
improved performance
'puts spray there and keeps spray there'

(less bounce)
(keeps spray on target)
(better coverage)
(all of the above)

COLLECTING MORE ACCOLADES

Array meets or exceeds the 17 science and technological benchmark standards set by the Chemical Producers & Distributors Associations for quality.

Rosen's Inc.

ARRAY[®]

NOTES

Array may be used as a substitute for nitrogen requirements.
9 lbs./100 gallons = 8.5 (1%) lbs. AMS/100 gallons.

PACKAGING

9 pound bags	200/pallet	1,800 pounds
45 pound bags	40/pallet	1,800 pounds
1,000 pound bags	2/pallet	2,000 pounds

BENEFITS

Array reduces fines and provides a more consistent droplet size. Reduces the risk of off target movement which maximizes the pesticide investment.

More uniform spray droplets and coverage improve canopy penetration.

TESTIMONIAL

"We have had excellent burndown results from applications of Array & Roundup™.

Array has proven to us & our customers to be an easy to mix, cost effective adjuvant that eliminates the need for respray."
