

Dear fellow Italian, Dear friend

We are a group of parents of native speaker or bilingual children interested in preserving and enhancing their knowledge of the Italian language and culture. We believe that a curriculum that integrates the European and the American approaches would be uniquely positioned to prepare our children for success in a globalized and ever changing world.

We recently started the project Scuola Italiana Enrico Fermi in collaboration with the School Office of the Italian Consulate in Chicago, with the goal of founding a Bilingual School open to Italian children as well as children of all nationalities and backgrounds but interested in an integrated and bilingual curriculum.

We believe that understanding the needs and concerns of the Italian and Italian-American parents in our Chicago Community is a critical success factor for this project.

So, we ask you to fill out the survey by clicking on the link provided by May 7th, 2015:
